AUBURN ALUMNI ASSOCIATION

JUNE, 1960

AUBURN, ALABAMA

Leaders Redouble Efforts For Stretch Drive—

Development Fund Passes \$1,500,000 Mark

Sullivan Award Recipients—1960 Algernon Sidney Sullivan Award winners are (l. to r.) Sydna Roton, Montgomery senior in education; Tom W. Gregory, Chattanooga senior in engineering physics; and W. C. (Red) Sugg '31, Upjohn Co. executive of Kalamazoo, Mich. The Sullivan Award is made annually to two graduating seniors and one other person in recognition of such characteristics of heart, spirit, and mind as evince a spirit of love and helpfulness for others.

"We are well beyond the \$1,500,000 mark—And with the kind of help I am getting from alumni advance and special gifts committees, I firmly expect us to attain \$2,000,000 in the near future"—Thus Chairman Alvin A. Biggio enthusiastically reported to The Alumnews on June 15.

That brief report tells a big story: The Development Campaign has now moved well beyond the half-way mark toward the immediate goal of \$2,594,000; the dedicated work of hundreds of volunteers now is bringing the kind of results that give renewed energy for the home stretch drive for advance and special gifts.

Alumnews detailed reports, because of transmitting and compilation problems, lag a few days behind Mr. Biggio's up-to-the-minute totals, but here are some of the stimulating developments that preceded his June 15 report.

Birmingham and Jefferson County, led by J. Fred Shackelford '29 and Thomas F. Hobart '27, drove to \$547,250.79, better than half-way to a \$1,000,000 quota; 146 donors account for that Birmingham total.

Leaders in Montgomery Area outdid their Birmingham competitors percentage-wise by plunging to a \$363,583 total, far better than half-way towards their \$500,000 quota; 293 contributors have given to the Montgomery Area Campaign, which is headed by J. Mills Thornton '37 as Central Alabama Chairman and Edward L. Lowder '34, Montgomery County chairman (Note: As a result of ill health, Mr. Thornton is resigning his chairmanship to be succeeded by Col. Rex McKissick, who has served him all along as a right-hand aide).

Atlanta with Dr. Ben S. Gilmer '26 as chairman reports \$140,000 from 35 donors.

Lee County shows a \$122,508.35 total from 122 contributors; This total includes \$84,968.35 from Auburn (exclusive of the university proper) under the leadership of Charles Rush '29 and \$37,-

Association that made the undertaking of a development program feasible."

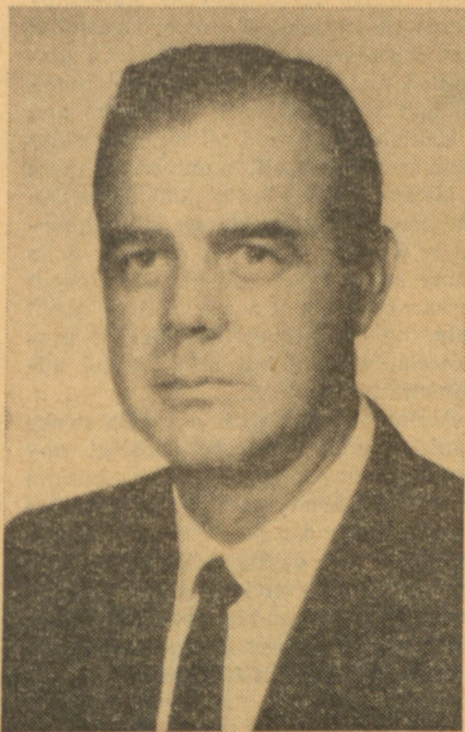

A native of Athens, Sarver graduated from Auburn in 1937, after having served as president of the Auburn student body. Two weeks later he married Molly Brasfield of Demopolis, a former Miss Auburn.

For two years he worked with Sears-Roebuck in the company's college training program in Danville, Va. In 1939 he returned to Auburn as assistant cashier of the First National Bank but soon joined Reliance Life Insurance Co. as Auburn agent and in 1941 became district agent, a position that he held until his appointment as alumni secretary in 1951.

In March, 1942, he entered the Army as a first lieutenant and in February, 1946, received his discharge as a lieutenant colonel.

He has a daughter, Molly, who is an Auburn University senior, and three young sons—Joe, Hardy, and David—that will be Auburn alumni if father's desires prevail.

In addition to his regular duties as alumni secretary, Sarver has worked with the university administration as a liaison representative to the Alabama Legislature, coordinated alumni efforts in support of Amendment 5 that provided \$4.5 million in building funds for Auburn, and assumed a key role in organizing the API Emergency Fund campaign that raised \$500,000 in private funds for the support of the Auburn School of Engineering.

Joseph B. Sarver, Jr. . . . director

540 from Opelika under the chairmanship of David Canon '38.

Among the areas with preliminary detailed reports in are Etowah County (Gadsden) with \$6,494.00; The Tennessee Valley Area with \$21,940; Houston County (Dothan) with \$10,050; and Chattanooga with \$2,200.00.

Little Lowndes County, which way back in March over-subscribed its \$8,-125 quota, has been joined by Autauga County (Prattville), which, with a quota of \$11,000, already has \$14,765 with its drive not yet completed.

Dr. Frank Samford . . . a leader

Frank P. Samford Gives And Works Generously

Key factors in the growing success of the Development campaign are the generosity and work of Dr. Frank P. Samford '14 of Birmingham, Auburn trustee and president of Liberty National Life Insurance Company.

Dr. Samford made a personal gift of \$50,000; Liberty National Life Insurance Company gave another \$50,000. In addition Dr. Samford has served as a leader in securing many advance special gifts.

One Development leader says, "I can count gifts totaling \$250,000 for which the influence of Frank Samford is directly responsible. Add to those others that he has assisted in obtaining and you can give him credit for personal assistance in producing at least \$500,000."

Dr. Samford's record of service to Auburn is too well known to require recounting in full. From 1943-1945 he served as president of the Auburn Alumni Association. He has been a member of the Auburn Board of Trustees since 1947, and in 1958 he was vice chairman of the API Emergency Fund drive.

After the immediate phase of the Development Program is completed, his service to Auburn will continue greater than the responsibilities of a trustee require, for he is already working as chairman of the Auburn Development Council, a group of outstanding educators and businessmen organized to work with the president and trustees to help Auburn maintain continuing excellence in her total educational program.

Permanent Office Established—

Sarver Directs Auburn Development

Joseph B. Sarver, Jr., executive secretary of the Auburn Alumni Association since 1951, has been named Director of the Auburn University Development Program. Auburn President Ralph B. Draughon appointed Sarver to the newly-created post pursuant to Board of Trustees action to establish a permanent development office on campus.

Board authorization of the office and Sarver's appointment as director came as the final organizational steps to insure a continuing long-range development program for the university. Previously, the Auburn University Foundation had been incorporated with Edmund C. Leach of Montgomery as president, and a permanent Development Council had been appointed with Frank P. Samford, Sr., of Birmingham as chairman.

In his new capacity Sarver will continue to direct alumni activities, which will be coordinated with the development program. The new development office has been established in the Auburn Union Building in conjunction with the Alumni Association headquarters.

Sarver's first task is to work with Campaign Chairman Alvin A. Biggio of Birmingham to complete the immediate phase of the Auburn Development Program, which is designed to raise \$2,594,000 in private and corporate gifts. He has assumed direction of the functions previously performed in the Birmingham development office under the supervision of G. A. Brakeley and Co., Inc., fund-raising consultants from New York. Records and materials from that office were transferred to Auburn on June 10.

Sarver has worked with the Development Program since its inception and is familiar with all the steps of its organization and conduct to date. In planning the initial phase of the program and employing the Brakeley Co. as con-

sultants, President Draughon and the Board of Trustees anticipated that the final portion of the current campaign would be under the direction of the Alumni Association. Sarver's appointment as director thus, in effect, confirms immediate duties already anticipated for him and expands his future responsibilities in Auburn's Development Program.

Commenting upon Sarver's appointment as development director, President Draughon said, "Joe Sarver is eminently qualified for this position by virtue of his ability, experience, and dedication to Auburn. His work and that of such volunteer alumni leaders as Dr. Roy B. Sewell, Dr. Frank P. Samford, and Mr. Edmund C. Leach laid the organizational groundwork in the Alumni

But It Did Rain—Just before graduation on June 3 it appeared that the weatherman might give a break, and Senator John Sparkman (left) along with President Ralph B. Draughon smiled at the happy prospect, but moments later a deluge forced the graduation through out of Cliff Hare Stadium and into the crowded Student Activities Building (Some 200 people attending couldn't get inside and listened via loudspeakers in the Sports Arena to the ceremonies they could not see.) Senator Sparkman received an honorary Doctor of Laws from Auburn at that time.

From The Editor's Cubbyhole—

Education—The Pursuit Of Truth?

By Jerry Roden, Jr., '46

"The pursuit of truth" is an oft-quoted definition of education; it is an apt description that comprehends everything that education ought to be. Despite its popularity, it obviously receives much more lip service than adherence in actual practice. Only a small proportion of teachers and professors work in accordance with its fullest implications and a still smaller percentage of students consciously consider themselves engaged in a pursuit of truth in the classrooms or in their studies at home or in the libraries. Nevertheless, I believe that, in higher education at least, most teachers would prefer to operate according to this concept and that a majority of university presidents in some very real sense consider the pursuit of truth the essential function of the university.

The disparity between profession and practice is of course to some extent due to individual human frailty but in a larger measure results from external pressures and circumstances beyond the immediate control of administration, faculty, and students. These groups—government, the general public, and even alumni—often, however well meaning, force other considerations and more limited goals upon the university until the pursuit of truth is so circumscribed that it no longer deserves the name of such. I want to consider here two encumbrances that hinder the pursuit of truth at our universities and to suggest how alumni can help relieve the pressure from them.

First, state financing by the very nature of political conditions tends progressively to inhibit the pursuit of truth through an economic pressure that emphasizes local benefits and quick application. In instruction the political focus is centered upon the number of graduates, shifting rarely to the quality of the individual graduate; in research

it is upon applied research, chiefly that which will increase production and promote efficiency immediately. Consequently, research in applied sciences and arts normally receives state support at least at a subsistence level; whereas, that in pure science and the humanities gets only token support, if any at all directly from state government—the pursuit of truth cannot always admit state boundaries and often cannot define applications of its discoveries in advance.

The long-range Auburn Development Program offers a method for financing research now inhibited or neglected as a result of the provincialism imposed by state support; but perhaps more important, it affords an opportunity to demonstrate the value, for both Alabama and humanity at large, of unshackled research. An imaginative development program may serve not only to supplement state finances to increase faculty opportunities to pursue truth wherever the search and the abilities of particular faculty members may lead but also to encourage the state to increase its support for the same purpose.

Secondly, universities are often shackled in the pursuit of truth by a prevalent belief that a university, particularly a state-supported university, should shun controversy. This assumption seems to arise from a confusion of fact and truth, from the notion that education has accumulation of facts as its chief concern. Of course facts, the discovery and accumulation of them, is an integral part of the educational process, but only a part, for facts must be evaluated, correlated, and interpreted

Behind Our Headlines—

Trustees Compliment Auburn Alumni

Recent actions of the Auburn Board of Trustees and President Ralph B. Draughon constitute a compliment to the Auburn Alumni Association—its leaders and each individual member of it. In establishing a permanent Development Office on the campus in conjunction with the Alumni Offices and in appointing Joseph B. Sarver, Jr., as Director of Development, they expressed their implicit confidence that the Association is a mature organization, capable of imaginative leadership and dedicated service.

Lest we underestimate the magnitude of the compliment and of the responsibility that accompanies it, let us remember that there were other alternatives of which both the administration and the trustees were well aware. At many other universities, trustees and administrators have established development offices distinctly apart from their organized alumni groups.

The Auburn Alumni Association through its chosen volunteer leaders, its executive secretary, and the actions of thousands of individual alumni has in recent years earned the trust that has been placed in it as the logical body for conducting a continuing development program. Through its efforts in the campaign for passage of Amendment 5, the API Emergency Fund, and the 1959 Legislative Campaign, it particularly demonstrated its readiness for greater responsibility.

Now that the Association has received the compliment and the trust that it has earned, each alumnus should rally more strongly than ever behind Development Campaign Chairman Alvin A. Biggio, Development Council Chairman Frank P. Sanford, Auburn University Foundation President Edmund C. Leach, and Development Director Sarver as they lead the volunteer effort to help President Draughon and the faculty make Auburn a truly great university.

A Painful Fact

Auburn's doctoral program has grown rapidly as the photograph and story on the opposite page indicate. However, we must temper our pride in this program with facts cited by Dr. Robert Anderson '41 in his article on the same page. Our latest group of fine new Ph.D.'s and Ed.D.'s, if all of them were to enter teaching at other institutions, equals only a fraction of those that Auburn now needs to add to her faculty from other institutions.

to be of real value to either the individual or society.

In the process of evaluating, correlating, and interpreting facts there is always the probability of formulating a new concept of truth and the possibility of revealing a new segment of it. Any new conception of truth may result in controversy, for it often threatens established systems and settled convictions.

But such controversy, rather than being undesirable, enhances democracy's chance of survival and increases the vitality of democratic institutions.

Controversy resulting from genuine scholarship—as distinguished from that arising from petty personal prejudices—should be encouraged at state-supported institutions. We must remember that controversy may indicate discussion and debate, not merely quarrel and wrangle. Since professors and students do not shed all human frailty upon association with a university, there is always the possibility that discussion and debate may deteriorate into a quarrel or wrangle, but the possibility of its doing so is rather slight. To prevent serious breaches of decorum there is not only the restraining influence of professorial wisdom but also that of administrative acumen.

Alumni cannot with a magic stroke banish public strictures against any healthy controversy on campus, but we can refrain from adding to the pressure against it. We can do so by making certain that we distinguish between our genuine moral convictions and our personal prejudices and by never permitting the latter to prompt suggestions for the conduct of Auburn University.

Our Alma Mater, like most other Southern universities, is not yet doing her part in training potential college teachers for our nation's institutions of higher learning. To do her part, Auburn must greatly expand her graduate program at both the Master's and the Doctoral level.

However, Auburn can expand the graduate program only as faculty and facilities permit. The most limiting facility at the moment is her library, or rather her inadequate library holdings, since a new library building is in prospect. The Auburn Graduate Council has found itself forced to refuse approval for any new graduate program until library resources are materially increased—The Development Program offers each alumnus an opportunity to help remove this limitation now.

Future Farmers of America

Each year between the spring and summer quarters, Alabama's Future Farmers of America, led by their advisors the teachers of vocational agriculture, congregate on campus for their state convention. Since their activities center around the Auburn Union Building, the faces of many of them become familiar to Alumni Association workers.

It is surprising to note how many of those faces re-appear later among the regular Auburn students. We have no idea of how many actual farmers vocational agriculture teachers and the organization of FFA produce, but they obviously introduce many boys to Auburn and inspire in them a desire for a college education. Thus they contribute directly to the production of many teachers, engineers, scientists, etc., as well as to that of skilled agricultural workers.

No Letters This Month

For the first time since *The Alumnews* opened a letters column we have no letters for publication—A fact that we are at a loss to interpret: Does this mean that the collective conscience of the alumni and faculty is taking a snooze? Is there not one person among our audience of 36,000 who objects to something we, or someone else, have done, or left undone? Is there not a single crusading idealist that this month wishes to issue something of a burning challenge to the rest of us?

A Challenge Accepted

Speaking here before the assembled workers of Auburn's Cooperative Extension Service and their guests, Extension Director E. T. York, Jr., '42, on June 14 defined a challenge: Citing facts to indicate that Alabama's farm income can be doubled within a decade, he suggested that those listening accept the possibility as a concrete goal of one billion dollars in gross farm income for Alabama in the year 1970 (Last year's gross was \$500,000).

Judging by the response to Dr. York's speech, his audience accepted the challenge. The significance of this reaction is heightened when one recognizes that "participating guests" at this conference represented 71 organized industrial, commercial, agricultural, and educational groups with state-wide affiliations.

The challenge, as Dr. York defined it, is not one offered by himself, or the Extension Service, but by existing conditions; it is a challenge to counsel and work together—which is precisely what Extension workers and their guests are doing in conference as this is being written.

Tears In Our Cup?

Once one could find a parking place here in the summer with ease, but no longer. And here are no tears; for in addition to the hum of students, there are many important state conferences that show Auburn assuming her proper role as leader.

Will Ph.D.'s Vanish From Faculty?

By Dr. Robert C. Anderson '42

Director of Southern Regional Education Board

The day may come when a doctor of philosophy is the rare bird of an American university faculty. Today the university produces the Ph.D., but is more than likely to lose him to governmental or industrial jobs at premium salaries.

As a result, there is a growing shortage of Ph.D.'s to staff our university classrooms. The shortage is telling on faculty quality. Instead of demanding a Ph.D. degree of beginning teachers, administrators hire the young teacher with an M.A.

In 1954 no less than 31.4 per cent of the new teachers in colleges and universities had earned the doctor's degree. In 1958, only 23.5 per cent had reached that level of preparation.

Of the total teachers, old and new in our colleges, half of them hold the Ph.D., but more than three-fourths of the newcomers to college and university teaching don't have one. It seems that in the years to come the proportion of Ph.D.'s to non Ph.D.'s will diminish even further.

The problem is pressing at a time when America needs the best teachers it can get to train future scientists and doctors, social scientists and humanists.

Educators have suggested several ways to increase the university output of well-qualified doctors of philosophy. One of these is to decrease the time lapse between the time a student receives his B.A. and the time he has earned his Ph.D.

Dr. John K. Folger and Dr. Kenneth Wilson have initiated a study of the time lapse between degrees based on analysis of data from the National Research Council.

They have found that in Southern universities, the average length of time between a bachelor's degree and the doctoral degree ranges from eight years in the physical sciences to about 15 years in professional education.

The study showed an average time lapse of more than eight years in the biological sciences, almost 10 years in the social sciences and 12 years in the arts and humanities.

In each of the fields, requirements can be completed in about three years, but students rarely achieve that goal.

The time lapse can be accounted for in most areas by pauses in study to gain practical experience through teaching or even to earn enough money to continue graduate education. Many work toward their degrees over a long period of years in summer and in part-time study.

It seems to be the opinion of faculty members and deans that the length of time between degrees can be shortened through:

1. Provision of more financial assistance for students.
2. Development of a definite time requirement for the Ph.D. program.
3. Provision of more adequate advertisement, counseling, guidance and supervision of students.
4. Improved undergraduate training of the graduate students and an im-

proved relation between graduate and undergraduate programs.

5. Early identification and counseling potential graduate students and employment of the "undergraduate research project" as a training device.

Shorter lapses of time may increase quantity of Ph.D.s in the South, educators say, and it will also increase the quality of teachers in the classrooms of future years.

"A student whose graduate program is spread out over a 10- to 20-year period after his B.A. is not likely to be as satisfied with his job and his professional relations as is a person who goes through graduate training in a rapid and orderly way," said Dr. Folger.

"It stands to reason that a person who is not well satisfied with his job will be a poor model for future generations of teachers and will probably be a less effective teacher himself" he added.

Autauga County Exceeds Its Development Quota

Autauga County this month became the second area to exceed its Development Fund quota. With a quota of \$11,000, Chairman T. Owen Murfee, Jr., '33 of Prattville reports \$14,765 already in, "with more still to come."

First area over the top was Lowndes County under the leadership of David M. Lyon '44. In March Lowndes completed its campaign with contributions of \$8,500; this small county had an \$8,125 quota.

The pattern for success in both Autauga and Lowndes appears to have been thorough organization. In each county leaders held a meeting attended by virtually all resident Auburn alumni and friends.

The Library Corner—

Auburn Receives Gatchell Collection

By Mary Elizabeth Willbanks

Gift and Exchange Librarian

The private library of the late Miss Dana King Gatchell has been given to the Auburn University Library by her sister, Miss Lillian Gatchell of Birmingham. A member of the Auburn faculty, School of Home Economics, from 1923 to 1956, Miss Dana Gatchell was famed for her many contributions to campus life. Her own compilations of *Commencement Coffees*, 1947-1957, and *Functions at Alabama Polytechnic Institute*, 1923-1951, of which she was often the planner, arranger and decorator, are included in the gift books. Even her well-known cake recipes and exact market orders are given in detailed summary.

Miss Gatchell's varied interests are, in fact, reflected in the many fields represented in the one hundred and seventy-six books, pamphlets, and magazines that make up the collection brought together over a period of fifty years. Such titles as *Life in the Middle Ages*, *Elizabethans at Home*, *Old New England*, *The Old and the Quaint in Virginia*, and *The Old South* show her wide interest in history.

The many recipe books, the collection not only of a connoisseur but also a most successful practitioner, include the *Martha Washington Cook Book*, *The Royal Pastry Confectionery Book*, the *Culinary Almanac*, *The Hotel and Restaurant Dessert Book*, *The International Cookbook*, *The Romanian Cookbook*, *The Party Sampler*, and such oddities as *The Noble Book of Cookery* and *Pot Shots from Grosse Ile Kitchen*.

Many of these books, as well as others, were acquired during Miss Gatchell's travels in this country and abroad.

Record Group—On June 3 Auburn granted the largest number of doctoral degrees presented at any commencement to date: Recipients shown above and their areas of specialization are (left to right, row by row front to back) Laura Newell, Education; Annie Seay Owen, Education; Herminio R. Rabanal, Fisheries Management; Eulie R. Brannan, Education; Harry K. Dupree, Fisheries Management; Paul D. Hill, Mathematics; Clarence Roy, Chemistry; Dr. W. V. Parker (Dean of the Graduate School); Jackie B. Garner, Mathematics; Curtis E. Henson, Education; Lathem N. Sibert, Education.

A Review Of Our Doctoral Program

Graduation on June 3 of Auburn's largest group of doctoral students serves as a fitting event through which to review the progress of Auburn's doctoral program. Counting the five Ph.D.'s and five Ed.D.'s

granted then, Auburn has awarded 54 doctoral degrees since the program was established here in 1953.

Particularly noteworthy in the recent graduation is that Dr. Clarence Roy received the first doctorate that Auburn has awarded in Chemistry and that Dr. Paul Hill became the first Auburn doctoral graduate to leave the university holding a post-doctoral fellowship.

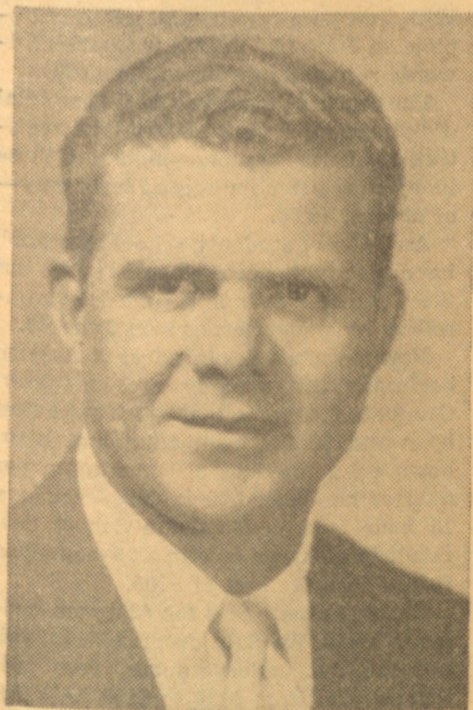

With an Auburn Ph.D. in Mathematics, Dr. Hill goes to the Institute of Advanced Studies at Princeton as a recipient of one of 145 post-doctoral fellowships granted throughout the nation by the National Science Foundation.

Among the doctoral programs of study at Auburn, those in Education leading to an Ed.D. degree have been the most productive to date. Of the 54 degrees awarded, 27 have been Ed.D.'s. Auburn offers the Ed.D. degree in School Administration, in Supervision and Guidance, and in Curriculum and Teaching.

Mathematics has produced eight Ph.D.'s (The recent growth of this program merits a separate feature to be presented next month.)

The remainder of Auburn's doctoral studies—i.e., with the exception of Chemistry, Mathematics, and Education—are concentrated on Ag Hill. Auburn has granted seven Ph.D.'s in Animal Husbandry, four in Fisheries Management, two in Game Management, four in Entomology, and one in Zoology.

Doctoral students are also enrolled in Agronomy and Soils, Poultry Husbandry, Botany and Plant Pathology, and Agricultural Engineering (an interdisciplinary doctoral program), areas in which doctoral studies were established here at relatively recent dates.

Dr. Robert C. Anderson

Jane Ann Wade . . . in history

John Ellis, II . . . in mathematics

Two Win Fulbright Scholarships

Four Auburn students fared well in recent national competition for widely-sought graduate fellowships: Jane Ann Wade and John Ellis, II, won Fulbright Fellowships to France. Donald Askins and Carolyn Ruth Schaefer received honorable mention for Woodrow Wilson National Fellowships.

Jane Wade—daughter of Col. James O. Wade, who earned an M.Ed. at Auburn in 1958 after his Army retirement—will study modern European history at the University of Toulouse beginning in September. On the June 24 she sails for France to spend the time before her fellowship to Toulouse begins in a study of the French language at the University of Grenoble.

At Auburn Miss Wade majored in history, specializing in European studies under the tutelage of Professors Robert R. Rea and Oliver T. Ivey. She was a leader in Mortar Board activities designed to discourage cheating in general and to eliminate possibilities of organized cheating.

John Ellis, II, an Auburn graduate student in mathematics during the past year and a former student of Dr. Fred Allison at Huntingdon, will attend the Henry Poincare Institute in Paris for advanced study of mathematics.

Honorable mention in Woodrow Wilson Fellowship competition is not an empty honor: Lists of honorable mention recipients are used by colleges and universities throughout the nation as references for recruiting graduate stu-

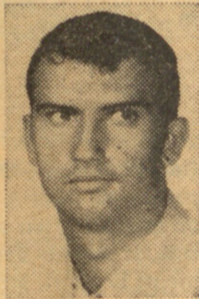

dents for other top fellowships; honorable mention thus brings many offers to those listed.

Carolyn Schaefer, an Auburn mathematics graduate, elected to ignore other offers in order to accept a graduate assistantship and pursue advanced studies in Auburn.

Donald Askins, who majored in English at Auburn, accepted a National De-

Askins

Johnson

fense Education Act fellowship to study English literature at the University of Virginia (NDEA fellowships which provide for study through the doctoral level are among the most remunerative available).

Gerald Johnson, another Auburn English major and classmate of Donald Askins, also received an NDEA fellowship to the University of Virginia (Johnson was also a Woodrow Wilson Fellowship competitor but unfortunately was eliminated from competition on a technicality—a requisite recommen-

Campus Drive In Spotlight—

Faculty Gives \$27,590 To Fund

With 227 faculty and staff members contributing \$27,590.00, the Auburn University "Family" has moved into the Development Fund spotlight and has pushed Lee County into third place among area contributors to the campaign.

Faculty solicitation, conducted upon a completely voluntary basis by a committee from the General Faculty, has taken place only for permanent faculty members and for staff workers in supervisory capacities. Thus of the group solicited, approximately fifty per cent have already donated to the fund.

Faculty Development Chairman John Deloney states that other members of faculty and staff will be afforded an opportunity to give within the next few weeks.

Commenting upon faculty response, a Development Leader said, "The excellent faculty showing thus far is doubly stimulating because President Draughon

and Chairman Al Biggio have leaned over backward to avoid any suggestion of pressure upon the faculty. They have said that they had rather have no faculty campaign than have one member feel that he was under coercion to give. As a result I know that faculty gifts have come from the heart and from a sincere enthusiasm for the Development Program."

Faculty contributions added to those from the townspeople of Auburn and those of Opelika bring Lee County's total to \$150,098.35.

Experienced Bowlers

Auburn Backfield Coach Buck Bradberry and Assistant Line Coach Joe Connolly were both members of three Georgia bowl teams. They played on the '46 Sugar Bowl team, '47 Gator Bowl, and '48 Orange Bowl squad.

New Areas Join Development Drive

As the Auburn Development Campaign goes into the stretch drive, Chairman A. Biggio can look for aid from several important areas, not yet included in totals reports but with solid organizations moving into all-out solicitation programs.

Highlights on the organization front show Mobile and Chairman David Roberts '39 on the go with firm backing from outstanding alumni acting as vice chairmen and committee leaders.

Anniston with Walker Reynolds '08 as chairman is moving with a novel plan. Working with Chairman Reynolds are Otto K. Seyforth '14 as co-chairman, R. Gordon Mallory '28 as organization chairman, and Ralph P. Bolt '50 as secretary and treasurer.

Anniston committeemen have been divided into an Orange Team and a Blue Team. Charles C. Miller, Jr., '38 captains the Blue team that has ten other players; Ralph Bolt is the captain for the Orange eleven (including himself).

dation, mis-directed or lost in transmission, failed to reach its destination in time).

Both Johnson and Askins will work for a Ph.D. in English, specializing probably in contemporary American literature.

Winner of this Orange and Blue game—the team that raises the most money for Auburn—will receive an autographed football, signed by members of Coach Jordan's varsity squad.

In **Pittsburgh, Pa.**, Joseph D. Hughes '31 is heading an advance and special gifts program already underway. This campaign will be followed by general alumni solicitation beginning July 7.

New Orleans with Louis V. Busenlener '37 as chairman is following the advance and special gifts solicitation plan in use by Pittsburgh. Kick-off for New Orleans personal solicitation is set for July 14.

Florida Auburnites in the **Orlando-Winter Park** area have been organized with William L. Sims, II, '20 as chairman, and Douglas E. Newsome '28 assisting him. The organizational meeting on June 11 took place in the Sim's Groves office area, "between two beautiful lakes under spreading oaks and magnolias." Alumni swam or fished for bluegill in the lakes after the meeting.

Selma with Jack N. Nelms '27 directing, is holding a mass organizational meeting June 23 with Coach Ralph (Shug) Jordan as guest speaker.

In **New York City** Carl Wideberg '20 has set up a development luncheon meeting for the Auburnites of Gotham on June 23.

D. Hamp Morris '34 of Geneva is heading a special committee to solicit the top executives of the leading textile firms operating in the Southeast.

Early Enrollment Figures Indicate A Busy Summer

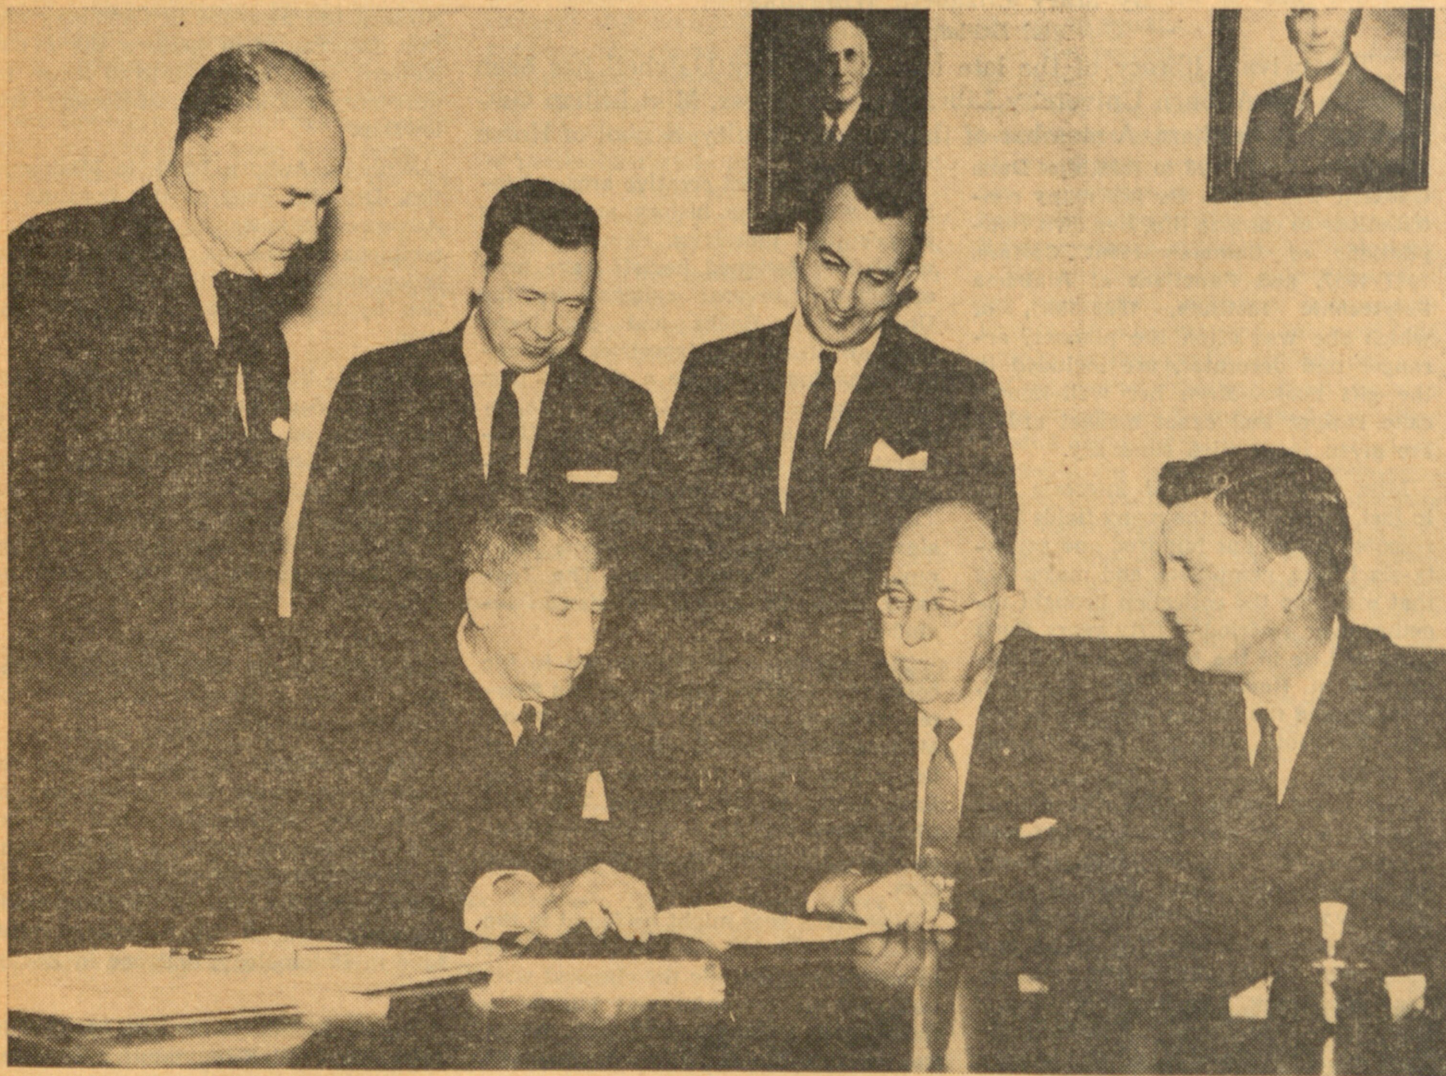

Summer heat and increased fees aren't deterring summer registrants at Auburn. With first term registration not yet complete on June 17, Registrar Charles Edwards reported enrollment at 4,500.

The registrar expects a first term total of between 4,700 and 4,800; a total registration for the summer—including those likely to register for second term only—of at least 4,900.

Analyses of students, school by school, have not yet been compiled, but the Graduate School reported 813 enrollees by mid-afternoon on June 17.

New fee schedules in effect at Auburn beginning this summer are as follow: Graduate fees remain at \$10 for the first hour and \$5 for each additional hour; however, a previous \$50 maximum per quarter has been lifted; thus fees for a 15 hour load in Graduate School now result in a charge of \$80; a 20-hour load results in a fee cost of \$105.

Undergraduate fees for Alabama residents went up \$10, from \$55 to \$65; non-resident undergraduate fees advanced \$25, from \$130 to \$155 (All figures quoted are for one quarter).

Mobilians Organize For Auburn—With Development Chairman Alvin A. Biggio '26 to advise, Mobile Auburnites lay plans to solicit funds for Auburn in Alabama's port city. Seated (l. to r.) are Mr. Biggio; Earl Benson '23, chairman

for industrial solicitation; and J. Cecil Stallings, Jr., '49, chairman for individual solicitation. Standing (l. to r.) are David D. Roberts '39, Development Chairman for Mobile; and Marion E. Weatherby '37 and Ken L. Lott '41, vice chairmen.

Notes From The Plain

BY NORM CARLSON

Jackie Burkett and Zeke Smith, a pair of Auburn all-America linemen, have accepted bids to play in the annual college All-Star game in Chicago, August 12. First to play in that game was quarterback Vince Dooley, now an assistant coach on The Plain.

Carlson

Burkett, a B+ student overall in Forestry, who made a straight-A his final quarter, was named to the first team scholastic all-America chosen recently by American Peoples' Encyclopedia. He was joined on the scholastic all-conference by fullback Ed Dyas and guard Zeke Smith . . . Dyas is a straight-A pre-med student who has taken enough work in summer school sessions to permit his graduation at the end of first quarter next fall . . . Other Tiger punter, Joe Dolan, is also a pre-med student, and has an average well above a B.

Only two of those who stayed to play four years of football under Coach Ralph Jordan have failed to go on and graduate. That's well above 98 percent graduation, something few schools can boast of in the South . . . Much credit on this count goes to assistant football coach Shot Senn, who keeps tab on the gridders.

Named Most Outstanding Senior Athletes at the recent Banquet of Champions were Lamar Rawson (football), Henry Hart (basketball), Paul Hall (track) and Alan Koch (baseball) . . . Hall was also chosen as track captain for the 1960 season by Coach Wilbur Hutsell.

There will be 15 ex-Tigers playing pro football this fall. On the list are—Dave Middleton, '54 (Detroit Lions), Bobby Freeman '54 (Green Bay Packers), Joe Childress '55 (St. Louis Cardinals), Ernest Danjean '56 (Hamilton), Jimmy Phillips '57 (Los Angeles Rams), Billy Atkins '57 (Buffalo Bills), Ben Preston '57 (Dallas Rangers), Jerry Wilson '58 (Philadelphia Eagles).

Cleve Wester '58 (Toronto), Mike Simmons '58 (New York Titans), Jackie Burkett '59 (Baltimore Colts), Zeke Smith '59 (Baltimore Colts), Richard Wood '59 (Baltimore Colts), Bobby Wasden '59 (San Francisco 49'ers), and Teddy Foret '59 (Montreal).

Halfback Billy Jordan served as president of the Auburn School of Engineering this past quarter, while halfback-track sprinter Jimmy Morrow was a senior senator . . . Lloyd Nix '58 was president of the frosh dental class at the University of Alabama, and Morris Savage, another Tiger athlete of the 1958 season, was president of the frosh law class at the University of Virginia.

Auburn has had more all-SEC men (nine) and more all-SEC men (17) since 1953 than any other school in the SEC. Also, Coach Ralph Jordan's record since 1953 is a fantastic 55-11-3, a winning percentage of .786 . . . The feat of capturing all four major sport crowns in five years has never been accomplished before. Auburn did it with track (1955), football (1957), baseball (1958) and basketball (1959).

Athletes don't take the easy road at Auburn. Check the list of majors for top members of the 1960 football squad. It looks something like this:

Engineering — Centers Lee Griffith and Don Irvin, guard Steve Osborne, tackle Winky Giddens and end Joe Leichtnam. Education—End Dave Edwards, tackle Billy Wilson, guard Jerry Gullede, centers Jim Price and Wayne Frazier, halfbacks Jimmy Burson, Jimmy Pettus and Bobby Lauder.

Art—Guard G. W. Clapp. Business Administration—Ends Don Downs and Bobby Foret, guard Billy Haas, quarterbacks Bobby Hunt, Bryant Harvard and Joe Overton, halfbacks Don Machen, John McGeever and fullback Larry Laster. Industrial Management—Halfback Bo Davis.

Speech—Tackle Ken Rice. Pre-Med—Fullback Ed Dyas and punter Joe Dolan. Agriculture—End Richard Guthrie.

Several Auburn men have joined the coaching field for next fall. Jim Jeffery, huge tackle on the national championship team, takes over as Athletic Director and head football coach at Andalusia High . . . Bayward McManus,

one of the Seven Dwarfs who carried the 1959-60 cagers to the school's first SEC title, is now the head basketball coach at Wilcox Central in Abbeville, Ga.

Three new young ladies became members of the official athletic family at Auburn during May. Giving birth to daughters were Martha Lynn, wife of assistant basketball coach Bill Lynn (girl named Jenny); Virginia Herring, wife of assistant football coach Hal Herring (girl named Hala), and Peetie Carlson, wife of Sports Publicist Norm Carlson (girl named Kerri).

* * *

Longest Auburn Run

The longest scoring play in Auburn football history was a 100-yard kickoff return by Bobby Duke against Mississippi State in 1953. Trailing 21-0 at half, Auburn made a thrilling comeback to tie State, 21-21.

* * *

All-Around Auburn

Defensive End Coach and Head Basketball Coach Joel Eaves was one of the greatest All-Around athletes in Auburn's history. A three-sport ace, as well as an honor roll student, Eaves earned nine varsity letters and was a first-string All-SEC end as a senior in 1936. He has been coaching here since 1949.

* * *

Auburn's Best Punter

Auburn Varsity Assistant Coach Dick McGowen held the national punting record for nine years, 1939-1947, with an average of 43.25. An All-SEC halfback on the Plains in 1940, McGowen still holds seven all-time Tiger records—including all phases of punting and most intercepted passes (six) in a season.

* * *

Auburn's Top Interception

Johnny Liptak holds the Auburn record for return of an intercepted pass as he dashed 98 yards against Georgia in 1947. Georgia, however, won the game 28-6 and went to the '47 Gator Bowl.

* * *

Four TD's vs. Auburn

Only four touchdowns were scored off the Auburn Tigers 1957 national champion football teams — three by passes and one by a pass interception.

* * *

Tidwell Top Passer

Auburn's All-America Travis Tidwell holds the school's all-time passing record for total yards gained in a season. Tidwell completed 79 of 158 passes for 943 yards in 1946.

* * *

Auburn's Best Defense

Since ten game schedules were instituted at Auburn in 1922, the national champion 1957 team holds the best defensive record allowing only 28 points. The second best team defense was 36 points in 1937 as All-America Center Walter Gilbert and company posted a 5-2-3 record and beat Michigan State 6-0, in the Orange Bowl.

* * *

Auburn's First Title

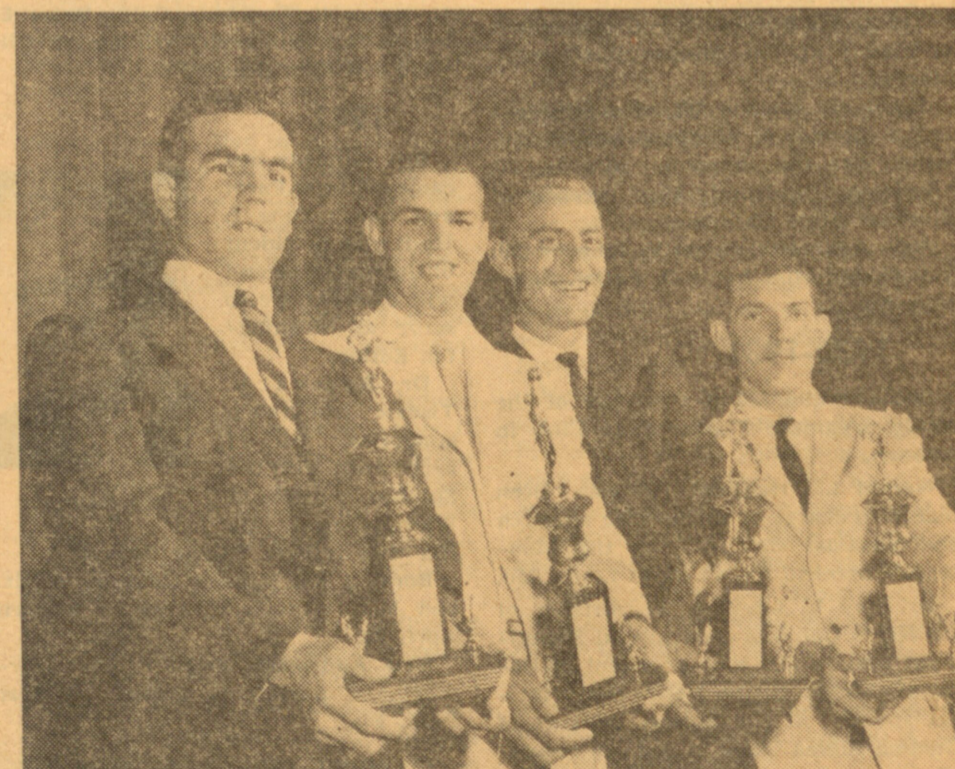

Auburn won the SEC football championship for the first time since the conference was organized in 1933 when they went undefeated and untied in 1957.

Scholastic All-America—Jackie Burkett, Auburn All-America center of the past three seasons, relaxes at home with son Jay and wife Jackie after learning that he had made a straight-A average in his final quarter of Forestry school. Burkett made the Dean's Honor Roll and the American Peoples' Encyclopedia's All-America scholastic team.

Lanett Long Rifle—Big (6-5) Richard Wood of Lanett, Ala., Auburn passing-master of the past two seasons, will be attempting an even bigger job starting in July. The Lanett Long Rifle recently signed with the World Champion Baltimore Colts of the National Football League and will try to become understudy to the great Johnny Unitas.

Top Tiger Seniors—Auburn's top senior athletes of 1959-60, as chosen by a vote of A-Club members are (L-R): Lamar Rawson, football; Henry Hart, basketball; Alan Koch, baseball; and Paul Hall, track. The four were presented trophies from the club at Auburn's annual Banquet of Champions, held May 26 at the Auburn Union Building.

Auburn Alumnalities

Chattanooga Leader—

1891-1904

Dr. C. B. Glenn '91 has received a citation for rendering 35 years of volunteer service to the Jefferson County Chapter of the American Red Cross.

New Address: Dr. Isham Kimball '04, Houston, Tex.

1908-1914

Hodnette Auditorium in the new \$500,000 high school at Atmore was named in honor of Robert E. Hodnette '08, who served as principal of Escambia County High for 33 years before retiring in 1956. He is now residing in Pensacola, Fla.

Samuel Adler '10 is now retired and lives in Kansas City, Mo.

New Address: Eugene M. Lindsey '14 Atlanta, Ga.

1920-1926

Frank S. McFaden '21 is chief, Division of Supervision, State of Alabama Building Commission, with offices in Montgomery.

Earl Tucker '26, humorist and editor of The Thomasville Times, was the main speaker at a banquet honoring members of the Tiger athletic teams for 1959-60 in Auburn May 26.

New Addresses: George E. Owens '20, Houston, Tex.; George K. Miller '21, Fort Worth, Tex.; Capt. William W. Moore, Jr., '26, Washington, D. C.; Mrs. Elizabeth Young Johnson '25, Redwood City, Calif.

1927

U. S. District Judge Seybourn H. Lynne recently was the speaker at Law Day ceremonies at Ft. McClellan.

Maj. Gen. Raymond E. Bell is chairman of the United States Delegation, Joint Brazil-United States Military Commission.

John J. Flowers, Jr., executive vice president of the Dothan Bank and Trust Co., is vice chairman of the Alabama organization for the observance in 1963 of the centennial of the National Banking System.

Walter B. Hitchcock, superintendent of city schools in Demopolis, has resigned his position because of ill health.

Ruth Warren is the first recipient of the "outstanding teacher" award given by VFW Post 4749 in Opelika. She teaches a fifth-sixth grade class at Morris Snower Elementary School in Opelika.

Redus Collier has been appointed to the Personnel Board which oversees the civil service system for municipal employees in Decatur.

New Addresses: R. Adm. Henry S. Persons, Washington, D.C.; Russell Vaughan Tinney, Jacksonville Beach, Fla.

1928-1929

Col. Leslie Spinks '28 is Commandant of Cadets at The Marion Institute in Marion.

Frank M. Malone '28, vice president and a director of Southern Bell in Atlanta, was the keynote speaker at "Business Opportunity Day" recently at Florence State College.

New Addresses: James V. Johnson '29, Tuscaloosa; Miss Avrie D. Fuller, Sarasota, Fla.

1930-1931

Louie James '30 is treasurer of the newly organized Toastmasters Club in Auburn.

Harold L. Hubbard '31 has been placed in charge of engineering research and physical chemistry by the Monsanto Chemical Co. in Saint Louis, Mo.

Dr. Roy L. Lovvorn '31, director of the North Carolina Agricultural Experiment Station and vice president of National Gamma Sigma Delta, was principal speaker at the annual banquet of Gamma Sigma Delta in Auburn recently.

Mrs. Mignon M. Andrews '30 is the new recording secretary for Delta Kappa Gamma in Auburn.

New Address: Charles Arthur Harris '30, Alexander City.

1932

C. E. "Tip" Mathews is working in the news department of The Mobile Press Register in Mobile.

Mrs. Mary McPhail Newman has been elected president of the Auburn chapter of Delta Kappa Gamma for the coming year.

Dr. Robert W. Montgomery, head professor of agricultural education at Auburn University, was recently elected president of the Southern Regional Vocational Workers at its fortieth conference in Oklahoma City.

New Addresses: James H. Howard, Huntsville; Lt. Col. Otis S. Moreman, Jr., Fort Sam Houston, Tex.

1933-1934

Charles M. Canon, Jr., '33 has been reappointed to a five-year term on the Opelika Board of Education.

Mrs. Mildred Simon Van De Mark '34 was recently installed as vice president of the Auburn Delta Kappa Gamma Society for the coming year.

Mrs. Maud Rhea Whorton Sharer MS '34, has resigned her position as associate home demonstration agent in Fort Peck, Mont., to join her husband in The Dalles, Ore., where he has been transferred with U. S. Corps of Engineers.

Mrs. Alma Blackmon Whatley '34, was recently named as one of five "Outstanding Pilots of the Year" by the Auburn Pilot Club.

New Addresses: Arthur D. Mayo, Jr., '33, Pass Christian, Miss.; James E. Harrell, Jr., '33, Huntsville; Tommy H. Giles, Jr., '34, Fort Ord, Calif.

1935-1937

Alfred K. Allen '35 is associated with Blount Brothers Construction Co. in Montgomery.

Miss Lucile Mallette '36 was one of five members of the Auburn Pilot Club recently named "Outstanding Pilots of the Year."

Col. Thomas McGehee '37, has been promoted to Brigadier General and is the commanding officer in charge of the new Grand Forks Air Force Base, Grand Forks, N. D. He was recently made an honorary alumnus of the University of North Dakota.

Born: a daughter, Frances Anne, to Mr. and Mrs. Charlie Mack Stokes '37 (Mary Frances Gibbons '49) in Auburn May 7.

New Address: Lt. Col. George D. Batchelder '35, Fort Jackson, S. C.

1940-1941

Virginia West '41 was recently installed as second vice president of the Sylacauga Pilot Club.

New Addresses: Walter H. Chandler, Jr., '40, Atlanta, Ga.; Lafayette F. Bledsoe, Jr., '40, Warwick, Va.; Maj. John M. Kelso '40, Redlands, Calif.; Roger E. Nance, '41, Huntsville; William R. Gill '41, Ft. Walton Beach, Fla.

1942

Bill Kennedy became editor of Farm and Ranch June 1. He is vice president of the magazine and will continue to serve as Washington Editor.

Dr. Samuel L. Tisdale has been appointed chief agronomist with the Sulphur Institute in Washington, D. C. His wife is Vera Allyne Darby.

Born: a son, Joseph Gautier, to Mr. and Mrs. William D. Ivey in Auburn April 23.

New Addresses: Virgil P. Rice, Birmingham; Barrett L. Collier, Winter Park, Fla.

1943

Edward O. Jones, Jr., associate professor of mechanical engineering, is the new vice chairman of the Auburn University general faculty.

Malmer R. Browder is a counselor

with the Vocational Rehabilitation Service in Andalusia.

Born: a son, Walter Jerome, III, to Mr. and Mrs. Walter Jerome Dunaway, Jr., in Birmingham May 3.

New Addresses: Maj. John B. Holt, Jr., Fort Benning, Ga.; Harold M. Wilson, Winter Haven, Fla.

1944-1945

Lamar Ware '45 of Auburn was recently elected second vice-president of the Alabama Retail Jewelers Association.

Dr. Crawford Tatum '45, Opelika, was one of two Lee County golfers who won the Pine Hill Four-Ball Invitational Tournament at Cordele, Ga., recently.

New Addresses: Mrs. Willie H. Ford, '44, Weaver; Asa B. Fuller, II, '44, Knoxville, Tenn.; George L. Cobb '44, Zanesville, Ohio; Mrs. Martha Horn Dally '45, Amarillo, Tex.

1946

Arthur C. Smith, Jr., is associated with Tractor and Equipment Co. in Birmingham.

Thomas B. Hamilton is engineer in charge of pulverizer design, Raymond Division, Combustion Engineering Co. in Chicago, Ill.

John L. Wilson is owner and operator of Beachside Motel in Carrabelle, Fla.

Thomas C. Pridmore is chief engineer with the Bradley Semiconductor Corp. in New Haven, Conn., after spending 13 years with Westinghouse. He and Mrs. Pridmore (Sue Montgomery '44) live at Branford, Conn.

Born: a son, Joseph Gullatte, III, to Mr. and Mrs. Joseph Gullatte Hunter, Jr., in Opelika on April 25.

New Address: Mrs. Ann Turner Blackburn, Decatur.

1947

Homer Wright of Auburn was one of two Lee County golfers who won the Pine Hill Four-Ball Invitational Tournament at Cordele, Ga., recently.

LCDR Robert C. Crowder is Military Liaison Officer with the Space Agency (NASA) in Washington, D. C., and has been associated with the processing of film from the first weather satellite—"Tiros." He is married to Faye Morgan '49.

Ray Golden is the new vice-president of the Millport Rotary Club.

Dr. A. Laura Newell, Auburn University instructor in elementary education, is the new chairman of the elementary division of the mathematics department of the Alabama Education Association. She received the degree of Doctor of Education from Auburn June 3.

Dr. Thomas W. Gandy, associate professor of agricultural education at Auburn University, was recently elected president of the super-trainer section at the Southern Regional Vocational Agriculture Workers Conference in Oklahoma City.

New Addresses: Robert R. Head, Huntsville; Mr. and Mrs. Guy F. Farris (Frances Groce) Nashville, Tenn.; Capt. William J. Plewes, Ft. Scott, Calif.; J. Harold Blackburn, Decatur; William W. Chalmers, Charlotte, N. C.; Lt. Cdr. William Clyde Hitt, Jr., Honolulu, Hawaii; Charles M. Wood, Decatur, Ga.; Robert E. Spence, New Orleans, La.

(Continued on page 7)

William H. Eiland, Jr., '47, is chairman for the Auburn Development Program in Chattanooga. He and his fellow workers are now completing an all out drive (see group picture on page 10).

Auburn Professor Heads Alabama AAUP Council

Dr. James Woodall, Auburn professor of English, is the new president of the Alabama Council of Chapters of the American Association of University Professors. The Council elected Dr. Woodall at its meeting on the Alabama College Campus in Montevallo in May. Other new officers are Dr. Robert M. Wallace, University of Alabama English professor, vice president; and John W. Gray, Auburn speech instructor, secretary.

After an address by retiring president Rodney M. Baine of Alabama College, serious studies of professional problems were instituted, including academic tenure, sabbatical leave, and fee remissions. Reports from local Alabama chapters on the year's activities were made by local presidents. Reported also was the formation of a new chapter of the AAUP at Florence State College.

Dr. Woodall, last year's vice president of the Council, has served the Auburn chapter in various capacities, including the presidency, and has represented the chapter at regional meetings. Dr. Wallace is currently president of the University of Alabama chapter. Mr. Gray is active in the local council of the Auburn chapter.

Also attending the meeting from Auburn were the local president and vice president, Dr. Buckminster Ranney and Dr. Richard Amacher.

Another Alumnus Helping Eradicate The Screwworm

A past Alumnews told the story of the leading part that Dr. M. E. Meadows, Jr., '43 is playing in the eradication of the screwworm. Since then we have learned that another Auburn alumnus, Dr. Forrest E. Henderson '43, is now also taking part in this unique project.

Dr. Henderson has been serving as Federal co-director of the program since July, 1959. Dr. Meadows is State Director of the Screwworm Eradication Program for the Florida State Livestock Board.

Auburn Club News

ELMORE ELECTS OFFICERS

New officers of the Elmore County Auburn Club are Herman L. Harris '36, president; Archie C. Allen '41, vice-president; and J. E. Morris, secretary-treasurer.

AUBURN, TECH CLUBS HOLD JOINT WISCONSIN MEET

Back in March Auburn alumni and Georgia Tech alumni in the Milwaukee Wisc., area held a unique joint meeting "to renew old friendships and rivalries."

Under the leadership of James DeWitt Morris '49, president of the Milwaukee Area Auburn Club, and Bill Schroeder, president of the Milwaukee Area Georgia Tech Alumni Club, they met on March 26 at the Ambassador Hotel with wives and dates as guests.

First they viewed a film of the 1959 Auburn-Tech football game and then listened to Lisle Blackburn, head football coach at Marquette University. Coach Blackburn discussed the differences between football as played in the Southeast and Midwest.

THE AUBURN ALUMNEWS

ALUMNALITIES—Continued

1948

George W. Soderquist was recently appointed president of Astronautics, Inc., in Eau Gallie, Fla. He is also a member of the Executive Committee and Board of Directors. He and his wife have three children, Skip, Carol Ann, and Mary Sharon.

Emory M. McKinney was recently promoted to vice president in charge of sales with the Dixie Auto Insurance Co. in Anniston. He is married to Kathryn Gunter '43.

Crowell H. Whaley is superintendent of the Steel and Tube Division of U. S. Pipe and Foundry in Burlington, N. J.

Harry L. Weaver is Escambia County Superintendent of Education.

Dr. J. Floyd Hall has resigned his position as superintendent of Ramey Air Force Base Schools in Puerto Rico effective July 1 to become administrative assistant superintendent of Evans-ton, Illinois, Township High Schools.

Carlton Smith has been named principal of the new Russell County school at Lavana.

Born: a daughter, Ann, to Mr. and Mrs. Robert Blackwell (Bob) Wheeler (Virginia Boykin '47) in Mobile Oct. 23. Bob is the new vice president of Underwood Builders Supply of Mobile. The Blackwells have two other children, Beth, 7, and Will, 2. . . A daughter, Hala Elizabeth, to Mr. and Mrs. Hal M. Herring in Auburn May 10. . . A daughter, April Ann, to Mr. and Mrs. Eugene D. Carder (Janis Ann Johnston) in Birmingham April 13.

New Addresses: Mrs. Estelle Neal Bravo, Titusville, Fla.; Charles D. Hostetter, Tucker, Ga.; John Nelson Phillips, Chelmsford, Mass.; Alton Bernard Todd, Dayton, Ohio; Mrs. Christine B. Spence, Columbus, Ga.; Jesse E. Neighbors, Dublin, Ga.

1949

George M. Gross was recently elected vice president of maintenance and engineering with Southern Airways, Inc., Atlanta, Ga.

Louis A. Bullington has been promoted to senior supervising engineer in Technical Division at Humble Oil and Refining Company's Baytown, Texas, refinery. He heads the economic analysis section. Mr. and Mrs. Bullington have a son, Stuart, 2.

Virgil R. Hogan has been appointed Assistant Sales Manager of Ludlow-

Saylor Wire Cloth Co. and will make his headquarters at the home office in St. Louis, Mo.

James E. (Jimmy) Coleman is living in Bainbridge, Ga., where he teaches Air Force and foreign students how to fly the jet trainer. He also works part-time for The Bainbridge Post-Searchlight.

Charles L. Wood is working at Redstone Arsenal in Huntsville.

Jack Walker recently was the featured speaker at a convocation for Auburn University Agriculture students. He is stationed at present in Mogadiscio, Somalia, where he is chief of the livestock division with International Cooperation Administration.

Reuben L. Wilkinson, chief of the measuring section of the laboratory at Cape Canaveral, Fla., recently received an award for sustained superior performance. He and his wife are the parents of Carolee, Diane, Robert, Barbara, and Susan.

Hugh Williams of Auburn entered oil paintings in the sixth annual painting-of-the-year competition in Atlanta last month.

Born: a son, Robert Marion, to Mr. and Mrs. Marion T. Williams, Jr., (Virginia Lusk '50) in Birmingham Jan. 3. Robert's sister Marjorie is 3. . . A son, William Carson, to Mr. and Mrs. Larry M. Glasscock in Birmingham May 1.

New Addresses: Zack L. Henderson, Greenwood, S. C.; Marvin E. Houston, Fort Worth, Tex.; Dr. Jonas H. Stewart, Jr., Washington, D.C.; Virgil R. Hogan, St. Louis, Mo.; Harold P. Ward, Louisville, Ky.; Franklin C. Wilson, Atlanta, Ga.; Fletcher C. Eddens, Livonia, Mich.; Robert O. Yergan, Jesup, Ga.; Gordon A. Cole, Red Bay, Mrs. Elizabeth Whately Neighbors, Dublin, Ga.; Q. P. Motley, Columbus, Ga.

1950

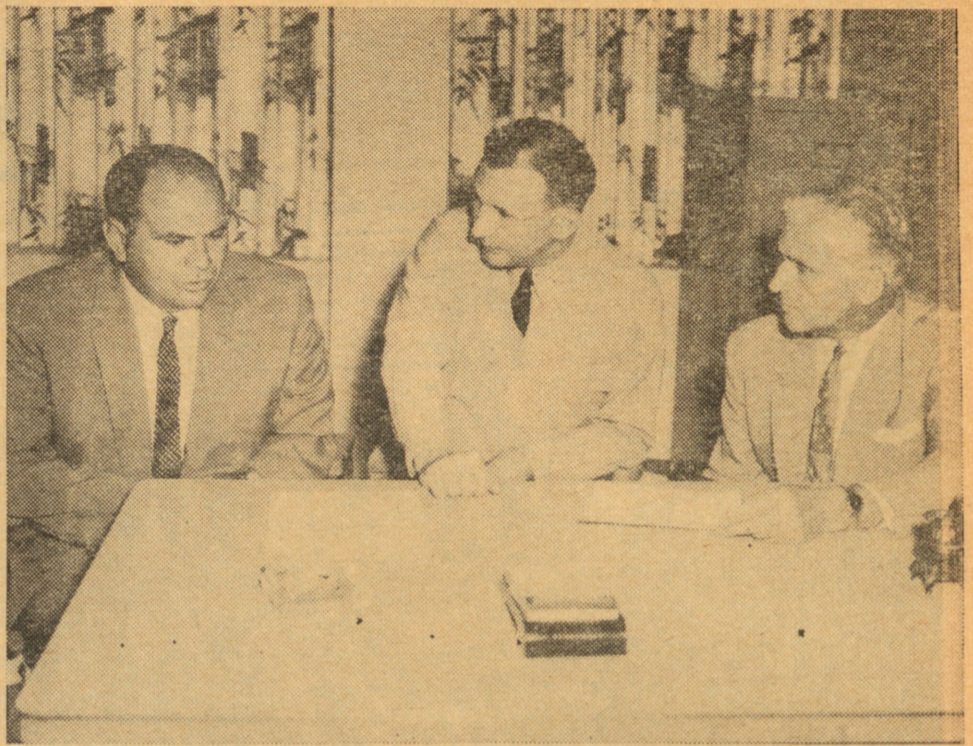

Auburn High School's 1960 yearbook, *The Tiger*, was dedicated to Robert B. Strong, civics teacher.

Preston E. Williamson has been appointed general machine program accountant with the Southern Bell Telephone Co. in Birmingham.

Arthur E. Williamson, Jr., is employed by the Martin Co. in Orlando, Fla.

J. Gilmer Blackburn was recently appointed to the Personnel Board which oversees the civil service system for municipal employees in Decatur.

(Continued on page 8)

Montgomery Area Leaders—Development Drive workhorses in Central Alabama (Montgomery and nine surrounding counties) are (l. to r.) Phillip P. Poundstone '48, Rex H. McKissick '38, and Ed Teague '32.

Montgomery Trio Works For Auburn

With \$363,583 of a \$500,000 Development Fund quota already accounted for, Auburn alumni in the Montgomery area can now visualize success. Due special credit, along with Central Alabama Chairman J.

Mills Thornton '37 and Montgomery County Chairman Edward L. Lowder '34, is a hard-driving trio, composed of Rex H. McKissick '38, Ed Teague '30, and Phillip P. Poundstone '48.

All three have worked untiringly organizing and conducting personal solicitations in Montgomery. Now with their goal in sight they show every sign of redoubling their efforts; furthermore, Rex McKissick is also taking on new duties.

As a result of ill health, J. Mills Thornton must resign his Central Alabama chairmanship, and McKissick has unhesitatingly volunteered to take over that post for the stretch drive. He is the logical successor; for in addition to his work in Montgomery, he has already devoted considerable time in assisting leaders in the nine counties surrounding Montgomery that comprise with Montgomery the Central Alabama or Montgomery Campaign Area.

In personal life each member of this trio has exhibited the characteristic drive that has made him such a valuable Development volunteer.

Born in Equality, Rex H. McKissick attended high school in Wetumpka and came to Auburn in 1934. During his four years here he played both basketball and football. After graduation he taught and coached at Perry County High School until he entered service in 1941. Upon his discharge in 1946, he went to work with the Veterans Administration. In 1951 he went back on active duty as an officer with State Headquarters, Selective Service System

in Alabama, a position that he still holds with the rank of colonel.

A past president of the East Montgomery Club, Rex has long been an active member of the Montgomery Auburn Club and is now a member of the National Auburn Alumni Association's Executive Committee. He is married to the former Thelma Cook.

Ed Teague, reared on a farm in Morgan County and graduated from Falkville High School, came to Auburn to study agriculture and graduated in 1930 to receive a graduate scholarship in dairying at West Virginia University. He received an M.S. there in 1932 and remained in West Virginia to work with Dairyman's Cooperative Sales Association until 1935. He returned to Alabama to become an assistant county agent, serving first in Greene and then in Tuscaloosa Counties from 1935 to 1942, when he became county agent in Pickens County.

In 1944 he became Extension Dairyman, a position that he left in 1948 to become Alabama Farm Products Agent for TCI in Birmingham. He left TCI in 1952 to accept his present position as Director of the Agricultural Division of the Montgomery Chamber of Commerce. He is a member of the Montgomery Lions Club and member of the Board of Deacons of the Memorial Presbyterian Church. He and his wife, the former Mildred Satterfield of Fairmont, W. Va., have had two children—a son Bill, whom they lost at age 14 with Leukemia, and Linda, who will be an Auburn sophomore next fall.

A native of Montgomery and a graduate of Sidney Lanier High School, Phillip Poundstone began his college career at the Agricultural College in Munich, Germany, during the latter part of his three-year tour with the Combat Engineers of Gen. George Patton's Third Army during World War II. Back in the states, he attended Auburn and played varsity football in 1946, 1947, and 1948.

Returning to Montgomery he became assistant manager of the Montgomery Production Credit Association, specializing in farm banking. He raises cattle as a sideline activity. A member of the Montgomery Auburn Club, Montgomery and Elmore County Farm Bureau, and the Montgomery and Elmore County Cattlemen's Association, he is president of the Capitol City Kiwanis Club.

Married to his childhood sweetheart, Marjory Growden, he has three daughters—Melissa Jane, 12; Nancy, 4; and Marjory Paterson, 1.

Auburn's Best Scores

Most points by an Auburn football team in a season is 257 in 1953, while the 1950 team was Tiger history's lowest scoring only 31 markers.

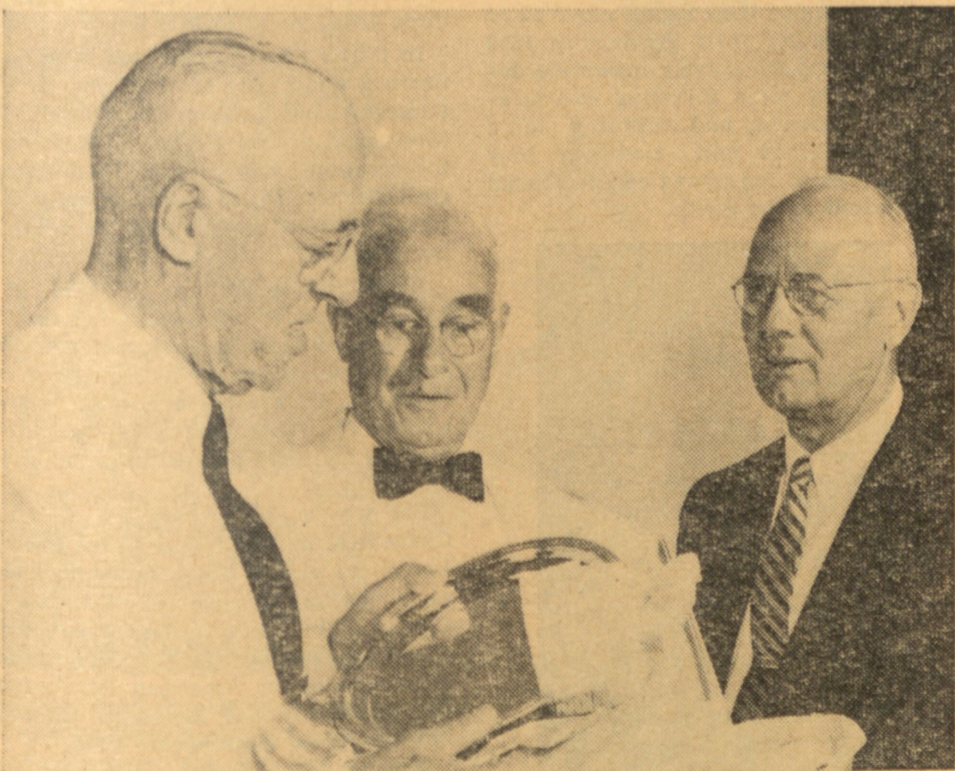

Retiring Professors Choose Alabama

Professors John A. Needy and James G. Bennett, members of Auburn's faculty in Mechanical Engineering until their retirement June 3, discovered Auburn and Alabama relatively late in their professional careers. But they evidently liked what they found.

Before coming to Auburn in 1948,

Prof. John A. Needy taught at Wither-spoon College, Purdue University, and Ohio Northern, where he also served as dean of engineering. Immediately prior to coming here, he was director of technical and engineering education at Evansville College.

A native of Kentucky, Prof. Needy

Retiring Professors John A. Needy (left) and James G. Bennett (center) compare gifts from friends and colleagues while Dean Fred H. Pumphrey stands by to congratulate them and wish them well.

will continue to live in Auburn and to occupy his time with research on insulation and on the uses of waste material from Alabama products.

Thus he will continue on a more personal basis projects on which he began working several years ago under the auspices of the Engineering Experiment Station.

Prof. Bennett, who came to Auburn in 1957 after spending the previous 12 years as a civil engineering professor at the University of Hawaii, will also remain in Alabama, but after the first of next month will be in Fairhope—near the salt water that he learned to love while in Hawaii.

At Fairhope, Prof. Bennett, author of many articles in professional journals and of "The Story of Engineering," a volume in the Book of Knowledge series, plans to continue writing. His own experience should afford a wealth of background material, for in addition to Auburn and the University of Hawaii, he has taught at the University of Wisconsin, Marquette, Denison, Lewis Institute, Robert College in Istanbul, and the University of Wyoming.

Lifesaver Honored—John E. Watts (right), senior veterinary student from Miami, receives the Veteran of Foreign Wars Lifesaver Award from Leon A. Gray, commander of Auburn VFW Post 5404. Looking on is Dr. James E. Greene, dean of Veterinary Medicine. In Auburn on March 3, 1960, Watts calmed Alvin Grimmer and suppressed the bleeding of his severed jugular vein for approximately 20 minutes until professional medical aid was procured. The physician that subsequently treated Grimmer credited Watts with saving Grimmer's life. Grimmer, a transient, had his neck slashed by another transient during a cafe stop in Auburn.

In Memoriam—'03 Through '57

William Watson Davis '03, formerly a professor at the University of Kansas, Lawrence, Kans., died on April 5, 1960.

Hinton Alfred Middleton '06 of Birmingham died on May 14, 1960, at the age of 74. Survivors include his wife, Mrs. Mary E. Middleton; a daughter, Mrs. Benjamin Thompson, Kingsport, Tenn.; two sons, H. A. Middleton, Jr., of Pinson, and George William Middleton of Birmingham; and 10 grandchildren.

Cecil C. Bean '15, prominent druggist and beloved citizen of Bowdon, Ga., died on April 21, 1960. Born in Heflin on Sept. 14, 1894, he rendered volunteer service during World War I.

He opened his drug store in Bowdon in 1921 and operated it until his retirement in 1957. During the years he served as mayor, legislator, and deacon. He was a Mason and a Shriner.

Survivors include a brother, Russell Bean '09 of Cullman.

Dr. LeGrand J. Hargett '16 of Yazoo City, Miss., is deceased according to information from the postmaster in that city.

E. Everett Wilkinson '21 of Cincinnati, Ohio, died on April 26, 1960, after suffering ill health for five years.

Survivors include his widow, Mrs. Ellen L. Wilkinson, and two sons, Edward E. Wilkinson, Jr., and James Robert Wilkinson.

Ulysses C. Jenkins '24 of Panola died on June 1, 1960, following a stroke suffered in April. He was 64.

Mr. Jenkins was a pioneer of the livestock industry in the Black Belt. In 1926 he became manager of the Kirkwood Plantation near Faunsdale; for several years—before the Black Belt Substation was established at Marion Junction—he did experimental feeding at Kirkwood for Auburn; at the time of his death he was bookkeeper and farm manager for Boyd Construction Co. He was a former president of the Alabama Cattleman's Association.

Survivors include his widow; a son, J. Clanton Jenkins '51 of Gallion; and a daughter, Miss Marjorie Frances Jenkins of Panola.

Richard O. Lile '28, Florida Traffic Supervisor for Southern Bell Telephone Co., died at his home in Jacksonville, Fla., on May 1, 1960, following a heart attack. A veteran employee of Southern Bell, he had been with the phone

company since his graduation from Auburn.

Survivors include his wife, Mrs. Mildred M. Lile; a son, Henry Thomas Lile; a daughter, Mrs. Lloyd Jones, III; a sister, Mrs. E. J. Barnett; and two brothers, John Lile and the Rev. Comer Lile '30.

John M. Slaton '31 of Tuskegee died on June 4 in the Virgin Islands. He was 50. Survivors include his widow, Mrs. Rubie Edwards Slaton; four sons, John M. Slaton, Jr., Albuquerque, N. M.; and Hunter, Samuel, and Joseph Slaton, all of Tuskegee; and two grandchildren.

Thomas Butlin Leonard, '34 of Birmingham, died on June 1, 1960, at the age of 47. Survivors include his wife, Mrs. Cecelia Conniff Leonard; and two daughters, Miss Nancy Conniff Leonard and Miss Kay Conniff Leonard, all of Birmingham.

Walter Lee Brown '35 of Dothan died in Chicago, Ill., on May 23, 1960, while there visiting relatives. He was 44.

Survivors include a sister, Mrs. Philip Fendell Bowie of Chattanooga, and a brother, Robert Y. Brown '26, of Dothan.

Wayne Olen Wagnon '39 died on April 30, 1960, in Colbert County Hospital in Tusculumbia at the age of 45. Until 1957, he had served as assistant county farm agent in Tuscaloosa and then Lamar County. Since then he had taught school and at the time of his death had a television farm program.

Survivors include his parents, Mr. and Mrs. Jack Wagnon; five brothers, Leonard, Noel, Ward, Roy, and Ray Wagnon; and three sisters, Misses Grovie, Nora, and Elizabeth Wagnon.

Sidney Chester Williams '55 died in Belmond, Iowa, on May 31, 1960, after a brief illness. He had lived and worked in Belmond since his graduation from Auburn. While in Auburn he was active in the Newman Club, Sigma Pi fraternity and other organizations.

Survivors include his wife and five children.

Jack G. Jones '57 died on Dec. 6, 1959.

34 Auburn's All-Southern

Auburn placed 34 players on All-Southern teams during the conferences existence from 1902-1932. Guard James Elmer was the first in 1902 and All-America Halfback Jimmy Hitchcock was the last in 1932.

ALUMNALITIES—Continued

Born: a daughter, Nancy Lee, to Mr. and Mrs. D. B. Gilmore in Montgomery May 15 . . . A daughter, Jennifer Susan, to Mr. and Mrs. William J. Lynn (Martha Hawthorne '52) in Auburn May 4 . . . A daughter, Ann Caroline, to Mr. and Mrs. W. Chester Martin, Jr., (Sarah Williams '54 in Opelika May 7 . . . A daughter, Alice Jane, to Mr. and Mrs. F. Ray Davidson in Montgomery May 7.

Married: Edith Irwin Quinn to Lile Fennel Davis '53 in Birmingham June 2.

New Addresses: Grady L. Ingram, Destin, Fla.; Charles L. Torbert, Jr., LaFayette; Walter L. Willis, Jr., Indianatlantic, Fla.; William D. Bynum, Buena Vista, Ga.; William O. Tanner, Palo Alto, Calif.; Mack L. Casey, LaGrange, Ga.; Paul A. Muller, Savannah, Ga.; William M. Ector, Macon, Ga.; Mrs. Anne Nethery Clay, Tarrant; John M. Hester, Decatur, Ga.; Mrs. Pauline Elmer Croninger, El Reno, Okla.

1951

Hurdie H. Burk, Jr., of Vestal has been appointed staff engineer in electromechanical development at the Owego facility of IBM's Federal Systems Division. He and his wife have two children.

Robert Swift, Atlanta, Ga., represented the Walker Electric Co. at a seminar on cost control through work measurement sponsored by Auburn University student chapter of the Society for Advancement of Management recently.

Milton Taff has been elected to the board of directors of the Auburn Junior Chamber of Commerce for the coming year.

Aubrey Larsen is administrative vice-president of the newly chartered Tiger Toastmasters Club in Auburn.

Born: a son, Gene Thomas, to Mr. and Mrs. Norman Kent (Elizabeth Collins '52) in Tuscaloosa April 16 . . . A daughter, Linda Anne, to Mr. and Mrs. John E. Terry (Mary Anne Watson '53) in Fort Walton Beach, Fla., April 22.

Linda Anne has a brother, John E., Jr., 2.

New Addresses: Harvey L. Corey, Jr., Pasadena, Tex.; Rell J. Suggs, Austell, Ga.; Capt. Robert E. Eidson, Quantico, Va.; Chester K. Scott, Fort Walton Beach, Fla.; Thomas G. Etheridge, Jr., Union Springs; Melvin W. Smith, Cullman; Howard Tisdale, Waynesboro, Va.; Mrs. Fay Bush Schillings, Auburn; Mrs. Virginia Kelly Muller, Savannah, Ga.; Herman Edward Ball, Bailey, Colo.

1952

Walter Weatherly, assistant cashier of the State National Bank in Fort Payne, is a candidate for a national director of the Junior Chamber of Commerce.

Capt. Henri H. Andrews is a jet pilot and at present is in Turkey on temporary duty.

Dr. Clemens J. Ackerman is with the Department of Biochemistry at Virginia Polytechnic Institute in Blacksburg, Va.

Married: Sharon Lee Trail to Capt. Henry Grady Heflin, Jr., in June.

New Addresses: Mr. and Mrs. Johnny Wallis (Peggy Joyce Hassler), Hoover; Richard G. Berberich, Belmar, N. J.; William R. Armour, Albertville; Mrs. Dorothy Cruise Parks, Glendale, Ariz.; William T. Clay, Tarrant; S/Sgt. Paul M. Foust, Hubert, N. C.

1953

William K. Blake, Jr., and Elbon L. Christian '52 have formed a partnership—Christian and Blake, Architects—in Birmingham.

Capt. Leonard B. Crain has completed the ten-week officer rotary-wing qualification course at the Primary Helicopter School, Camp Wolters, Tex.

Wallace Parker Flowers is employed by Lockheed Aircraft Corp. in San Francisco, Calif.

James W. Summerville is working for the newly formed Computer Dept. of GE, a department of the Industrial Components Division, and lives in Oakland, Calif.

(Continued on page 9)

Last Member Of First Coeds Dies

Mrs. Margaret Kate Teague Hagler '94, the last survivor of Auburn's first three co-eds, died at her home in Tulsa, Okla., on May 31 at the age of 87. Reports from Tulsa show that she remained a pioneer in feminine cultural movements throughout her long life.

Mrs. Hagler lived to see her name and that of her two classmates and sister co-eds enshrined on the Auburn campus. In 1957 women's Dormitories II, III, and IV were officially dedicated as Kate Conway Broun Hall, Willie Gertrude Little Hall, and Margaret Kate Teague Hall, respectively, in honor of the intrepid trio.

Under present conditions it is difficult to imagine the courage required of these three for their invasion in 1892 of a hitherto exclusively masculine domain. They were initiating co-education in Alabama, and according to a well-established oral tradition they made Auburn the second co-educational institution in the South.

Mrs. Margaret Kate Teague Hagler

They had not only to brave the youthful stares and to risk the barbed quips of fellow students—without looking either to the right or the left themselves—but also to prove themselves and the principle of co-education to many skeptical adults.

Their first hurdles were, however, entrance exams to qualify them for entering the junior class—Apparently the most optimistic advocates of co-education at Auburn and elsewhere around the South feared to experiment with it at the freshman or sophomore level. Furthermore, the coeds were excluded from chapel attendance because college authorities feared the effect of having three girls among several hundred men.

In 1894 all three graduated with distinction, and at the commencement exercises Alabama Governor William C. Oates paid proper tribute to them and the occasion by arising as the name of each girl was called and personally escorting her to the platform to receive her diploma.

After leaving Auburn, Miss Margaret Kate Teague returned to her native Arkansas, where in 1897 she married Joseph Don Hagler. In 1898 they moved to Tulsa, Okla., where she spent the remainder of her long life as wife, mother, and leader in cultural and civic affairs.

She was a charter member of the Clement A. Evans Chapter of the United Daughters of the Confederacy in Tulsa, a charter member of the Tulsa County Public Health Association, and a member of the Tulsa Chapter of Daughters of the American Revolution, the Boston Avenue Methodist Church, and the Tulsa Shakespeare Club.

Among Mrs. Hagler's survivors are two daughters, Mrs. James C. Pinkerton and Mrs. Margaret Hagler Cole, both of Tulsa; five grandchildren and three great-grandchildren.

ALUMNALITIES—Continued

Richard G. Cook is a landscape architect in Birmingham.

Betty Teague participated in the discussion at the May meeting of the Lee County Mental Health Association. She is a psychiatric social worker in the Mental Health Center of the Jefferson County Department of Health.

Sidney B. Hays, an assistant in the zoology-entomology department at Auburn University, is the recipient of the annual Sigma Xi award for achievement in research. His work is in a fire-ant control program.

Born: a son, Clifford Louis, Jr., to Mr. and Mrs. Clifford Louis Callis in Montgomery, April 25.

New Addresses: G. Vauban Ashmore, Union, S. C.; Ernest William Baker, Marion; Robert d'A. Larue, Metairie, La.; Elbert L. Herrington, Crestview, Fla.

1954

Lt. Harold E. Pate recently completed the ten-week officer rotary-wing qualification course at Camp Wolters, Tex. His wife, Joan Holland '52, resides in Burkville.

Mr. and Mrs. B. Frank Hester, Jr., (Carol Jean Sweet '53) are living in Metairie, La. He works for Chemical Cleaning Co., Inc., in New Orleans.

Dr. William F. Head, Jr., will assume his position as associate professor of pharmaceutical chemistry at Auburn University on Sept. 16. At present he is associated with Eli Lilly Co. He and Mrs. Head have a son, David, 2.

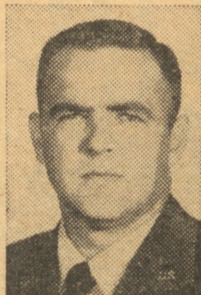

Born: a daughter, Sarah Elizabeth, to Lt. and Mrs. Robert H. Gracey (Margaret Ann Harbor) at Harmon AFB, Newfoundland, April 6 . . . A second son, John Mark, to Mr. and Mrs. Walter M. Albritton in Cantonment, Fla., Jan. 9. The Albrittons have now moved to Pensacola . . . A daughter, Nanette Gay, to Mr. and Mrs. Clarke R. Newlin, Jr., (Jean Thomas) in Houston, Tex. Nanette joins brother Steve, who is 2½ . . . A son, Eli M., III, to Mr. and Mrs. Eli M. Whitaker, Jr., (Arleta Campbell) in Memphis, Tenn., on March 11.

Married: Sally Hope McArthur to Robert Neal Hall in Ashford June 3.

New Addresses: Thomas L. Mitchell, Waynesboro, Ga.; Reynolds S. Morris, Birmingham; Mrs. Doris Anita Karr Burrows, Florence; Bobby N. Flint, At-

lanta, Ga.; Jack B. Smith, LaGrange, Ga.; Stanley C. West, Pensacola, Fla.

1955

Samuel T. Parker

Lt. Samuel T. Parker has recently been designated a regular officer in the U. S. Air Force after having been on reserve status. He is in the 1710th Aerial Port Squadron at Donaldson AFB, S. C. He resides with his wife and two children at Greenville, S. C.

Nolan Hardin is secretary of the newly chartered Tiger Toastmasters Club in Auburn.

W. Eugene Driver is head of the mechanical draft fan dept. of the Chicago Blower Corp., in Franklin Park, Ill. His wife and two children, Debra, 7, and Blake, 4, plan to join him there shortly.

Charles I. Harding is employed by the Florida State Department of Health as a sanitary engineer. He, his wife, and three sons reside in Jacksonville, Fla.

Dr. and Mrs. Horace C. Morgan, Jr., (Dorothy Thomas '57) have moved to Athens, Ga., where he is director of the Diagnostic Laboratory, School of Veterinary Medicine, University of Georgia.

1/Lt. Allen G. Myers, III, has been transferred by the Air Force to the University of Oklahoma in order to obtain a Master's degree in Aero-Engineering. His wife, Miriam Maguire '57, and sons Al and Greg, accompanied him to Norman.

Clarice Ellen Smith Gibbs is a home demonstration agent in Roberta, Ga.

Henry M. Hutcheson is employed by Ursary Drug Store in Gadsden.

Born: a son, William Warner, Jr., to Mr. and Mrs. W. Warner Williams in Houston, Tex., May 8 . . . A son, Gregory Larder, to Mr. and Mrs. Joel A. Hall, Jr., in Birmingham April 21 . . . A son to Mr. and Mrs. Wesley A. Parker in Pensacola, Fla., April 5. Wesley is a development engineer with Chemstrand Corp.

New Addresses: Henry C. Cook, Clinton, Okla.; Mrs. Elizabeth Pate Morris, Birmingham; Truman P. Poole, Jr., Decatur, Ga.; Samuel O. Ruth, Chatta-

At age 81 Marvin B. Small, an adopted son of Auburn, still explores the Coosa in his 50-year-old canoe.

Marvin B. Small—Unique Historian

Marvin B. Small of Gadsden began working in his early teens and never had an opportunity to finish high school, much less to enter college. But the end of formal schooling did not still his avid interest in

the world around him and in the history of the past; exploring and studying in his spare time and practically full-time since retirement—he is now 81—he has become a unique Alabama historian and a walking encyclopedia of Civil War lore.

Sometime during his many busy years, he adopted Auburn as his Alma Mater and he is as loyal as the most faithful graduate. When his first grandson, Stevie Taylor, was born, Mr. Small gave him a \$100 bond to pay his first entrance fees to Auburn. After one more year in high school, Steve will be seeking admission here, and granddad wishes that he could be coming with him.

nooga, Tenn.; Thomas L. Mitchell, Pasadena, Tex.; Clifford R. Clark, Pensacola, Fla.; Hollis E. Todd, Jamison; William W. Walker, Marion; Calvin T. Morton, Clay, N. Y.; George M. Green, Orlando, Fla.; Lt. Bryan B. Marsh, Jr., Dallas, Tex.; Mrs. Dorothy Miller Albert, Silver Springs, Md.; Robert C. Scott, III, Wichita, Kans.

1956

Mabry Collins has been called to serve as assistant pastor of the First Baptist Church of Rockville, Md. After attending Auburn, he earned a B.A. at Baylor and a B. D. degree at Southern Theological Seminary in Louisville, Ky.

Dean Mimms is with Pepperell Manufacturing Company in Opelika.

Mr. and Mrs. Billy G. Barnes (Dorothy Sharon '56) are living in Orlando, Fla., where he is on temporary assignment for The Martin Co.

John W. Morris has joined the production department at Monsanto Chemical Company's Inorganic Chemicals Division plant in Monsanto, Tenn. He was previously with Dow Chemical Co. in Freeport, Tex.

Jerry L. Savage is an Examiner for the Federal Deposit Insurance Corporation and lives in Albany, Ga.

Robert B. Mardre, Jr., received his degree in medicine from the University of Alabama on May 29.

(Continued on page 10)

In a recent letter to L. O. Brackeen, Auburn director of publicity, Mr. Small said: "Speaking of Auburn University, I know of no other institution of learning in this broad country of ours that will compare with it, according to my estimation. Could I reverse the wheels of time and run backward about sixty-four years, I would be applying for entrance in the morning."

Leaving time as it is, Mr. Small might well teach a lot of us at Auburn and elsewhere among the alumni body something about history and life. His paper, "Canoeing on the Coosa," was one highlight of this year's meeting of the Alabama Historical Association.

Marvin B. Small, not only studies history, but through canoeing and hiking he also re-lives it on the scene in his imagination. His "Canoeing on the Coosa" is the result of innumerable canoe trips to historic sites; his most notable river trek was one from Rome, Ga., to a point below Talladega, Ala.—He still averages five miles per hour with canoe and paddle.

He does not rely upon imagination alone to keep himself in contact with the past. Not only is the canoe in the photograph above of ancient vintage but also the boots that he is wearing—he has had them so many years that he no longer remembers the date of purchase. In them he has hiked through the Smokies, the Cumberland, the Ozarks, and Yellowstone Park. With a true pioneer's knack for preserving, he has kept them through 30 to 40 years without ever having them half-soled.

Also among his possessions are an inherited muzzle-loading rifle—handmade and either a "Kentucky Rifle" or a replica thereof, he believes—, a buckskin jacket—about the age of his boots—, and a guitar of some 60 or more years—he purchased the guitar because as a somewhat bashful young man he found that it talked effectively to the young ladies for him.

Any alumnus interested in a good short course in living history should drop by 1121 Fourth Ave., Gadsden. Just note that you are an Auburn man and you are sure to find a welcome.

Superior Performance At Canaveral—Reuben L. Wilkinson '49 (left), chief of the Measuring Section at the Army's Missile Firing Laboratory at Cape Canaveral, receives an award for sustained superior performance from Dr. Kurt H. Debus, director of the laboratory. Wilkinson has been with the Army since 1952. He and his wife, nee Clair Roberts, live at Merritt Island, Fla., with their five children—Carolee, Diane, Robert, Barbara, and Susan.

Chattanooga Solicitors—As *The Alumnews* goes to press these alumni, under the leadership of William H. Eiland, Jr., '47, are conducting an all-out personal solicitation for Auburn Development in Chattanooga and its environs: Left to right they are Dr. Walter L. Martin, Jr., '53; S. Dean Peterson '25;

Thomas I. Mastin, Jr., '43; Jack W. Anderson '47; Charles B. Ordway '22; and Earl C. Smith '31. Not shown but working with them are Malcolm W. Orr, Jr., '37 and Ralph Carroll, Jr., '37 (Dalton, Ga.).

ALUMNALITIES

(Continued from page 9)

E. E. Parker MS '56 of Smith's Station School has been named president of the Lee County Teacher's Association.

William E. Hardy is with the Corning Fiber Glass Co. in Newark, Ohio.

Judson D. Estes is assistant manager of the Ralston Purina Check-R-Board store in Birmingham, a position that he assumed a year ago after a two-year training program with the company.

Married: Lorena Faye Franklin to William Jere Allen at Coosada Baptist Church on June 24. He is now a student at Southern Baptist Theological Seminary in Louisville, Ky.

Born: A daughter, Ruth Alice, to Mr. and Mrs. Doug Miller (Betty Anne Davis '56) of Livingston, N. J., on April 21 . . . A son, John Burns, to Dr. and Mrs. K. V. Kliner (Cordelia Parker '56) of Eufaula on April 21 . . . A daughter, Susan Carol, to Mr. and Mrs. David C. Cassidy, Jr., (Jean Barnard '56) of Jacksonville, Fla., on April 9. Susan joins David, III, 4, and Debra Lynn, 3. Mr. Cassidy is employed with the U. S. Engineers in Jacksonville . . . A daughter, Martha Carol, to Mr. and Mrs. Harold Wayne Cochran (Martha Boyett '56) of Birmingham on March 14. They also have a son, Kenneth Wayne, 2. Mr. Cochran is an agent for State Farm Mutual Insurance Co. . . . A son, Cole Marion, to Mr. and Mrs. James H. Taylor (Catherine Cole '56) at Emory University Hospital on April 27. They also have a daughter, Kitty, 2 . . . A son, Warren Luke, to the Rev. and Mrs. R. Warren Wasson (Dorris Ann Smith '56) in Tallahassee, Fla., on Nov. 11. Before assuming the duties of motherhood, Mrs. Wasson was director

New Addresses: Cecil D. Kinney, Jacksonville, Fla.; Emil Doerfer, Jr., Shreveport, La.; Thomas L. Porter, Jr., Alexandria, Va.; Francis C. Cardinale, Clifton, N. J.; Gary D. Yates, Pine Castle, Fla.; Lt. James R. Clinton, Beeville, Tex.; Mrs. Jeanne Guillory McAllister, Huntsville; Carl L. Vignali, Clearwater, Fla.; Ronald H. Pinson, McCalla; Wilson M. Alexander, Lugoff, S. C.; Joseph Moniz, Los Angeles, Calif.; Mrs. Dorothy Anne Raff Parker, Auburn; Lt. (jg) Ralph B. Draughon, Jr., Philadelphia, Pa.; James W. Elliott, Chickasaw; Mr. and Mrs. Phillip W. Hayes (Martha Hammond), Coral Gables, Fla.; Dr. Gene A. Bingham, Leesburg, Va.; Roger B. Southern, Panama City, Fla.; William F. Church, Morganton, N. C.; Robert E. Gray, New York, N. Y.

1959

Walt C. McClenny is working in the news department of The Mobile Press Register.

Frank M. Emory is employed by The General Electric Credit Corp. in Savannah, Ga.

Marjorie R. Trawick is now Mrs. David W. Bates and lives in Philipsburg, Pa.

2/Lt. Frederick W. Wilson has completed the nine-week officer basic course at The Transportation School, Fort Eustis, Va.

Ensigns Angus M. McMillan, Jr., and Ray R. Metzger recently made their first solo flights during basic flight training at Pensacola, Fla.

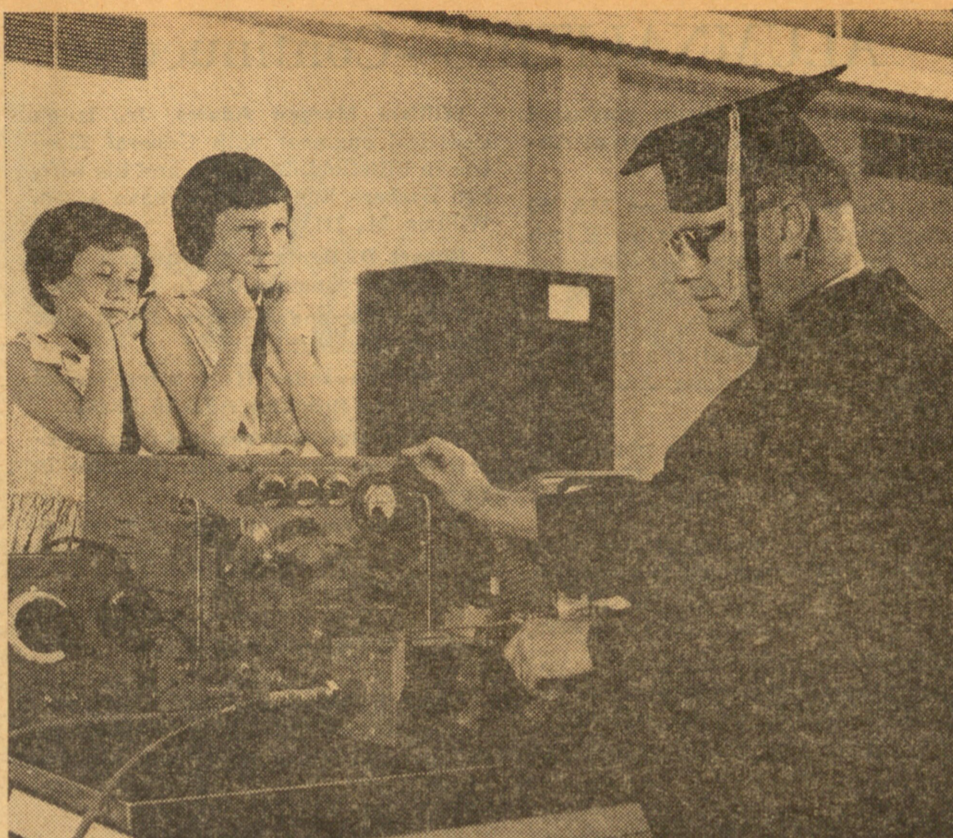

Mrs. Martha Bassell Oliver MED '59 is a housewife in Montgomery. She has a daughter, Helen Jane.

James Ronnie Beasley is an aeronautical engineer at Warner Robins AFB, Ga.

Hubert Mitchell is associated with IBM in Atlanta, Ga.

2/Lt. Mallory Bernard Jackson is stationed at Ft. Belvoir, Va.

Andrew Lee Childs, Jr., is an engineer-draftsman with the Lone Star Cement Corp. at Norfolk, Va.

"Is That How You Got That Cap and Gown, Daddy?"—When Jack Kaisner received his B. S. in Electrical Engineering, he took his little daughters Deane and Kristen around Dunstan Hall to show them where and how he earned the degree. Here they look on while he measures VSWR (voltage standing wave ratio) on a microwave device in the Microwave Laboratory.

Kaisner Never Forgot His Ambition

Among those receiving degrees from Auburn University June 3 was Jack Kaisner, whose degree in Electrical Engineering marked a triumph over a long series of adversities. Jack began life in the face of a full

count, and ever since fate has been tossing some mean curves at him, but he has managed to come through in the clutches.

Jack Kaisner was born three months premature, weighing a not very hefty 2 lbs., 8½ ozs. On that day he lost a twin brother that did not have the strength to survive. Somehow Jack not only survived but by the time he finished high school developed enough strength and agility to win a football scholarship to Auburn.

In the fall of 1946 he came to the campus to take part in pre-school practice for Tiger gridders; after two weeks grinding on the practice field, Jack was forced to leave because of the serious illness of his father, a World War I veteran who still suffers from the effects of gas warfare.

His father's prolonged illness forced Jack to give up the football scholarship and forego any immediate plans to come to Auburn. He developed a private-order citrus business and became a civic worker, devoting a particular effort to youth activities. He entered the youth work of the Episcopal Church in Cocoa, Fla., and of the Cocoa Elks and became a Boy Scout worker and a Mason. Among his many activities was that of State Chairman for Youth Activities for Florida Elks.

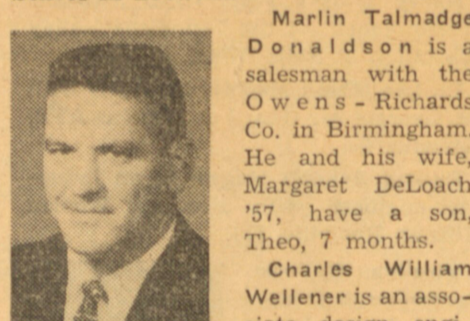

In the midst of all his business and civic activity, Jack never forgot his ambition to come to Auburn; neither did he forget a desire to become the head of a family of his own. In 1957 he found his way clear to return to The Plain. While studying Electrical Engineering, he decided to go on the co-op plan for awhile to intermingle study with practical experience. This decision led him to a rendezvous with destiny as he sees it. As a co-op student working with TVA in Chattanooga, he met a charming widow that is now Mrs. Jack Kaisner and two little girls that are happy to have him as a father.

After graduation here, Jack, his wife, and daughters left for Chattanooga where he is now an electrical engineer with the Tennessee Valley Authority.

William Howard Evans is with Rohm and Haas in the company's research division at Redstone Arsenal in Huntsville.

Milton F. Nesbitt of Columbus, Ga., was "Man of the Month" for Liberty National Life Insurance Company's Georgia-Tennessee district in February. The honor came to Milton only six months after he joined the company. He is married to Sandra McAllister '61.

Joseph C. Wilson has been named assistant coach at T. R. Miller High School in Brewton.

M. T. Donaldson

St. Petersburg, Fla. He is married to the former Patricia Ann Fillmore.

George W. Burkart is in his second year of General Electric's Manufacturing Training Program at the Hermetic Motor Division in Tiffin, Ohio.

Jimmy Lee, former Tiger basketball captain, has been named basketball and assistant football coach at Andalusia High School.

John G. Hicks is working with North American Aviation in Hartford, Conn.

James B. Springfield is presently employed as manager of Retail Credit Company in Sylacauga, a position that he has held for 6 months.

William A. Tatum has been elected secretary of the Auburn Junior Chamber of Commerce.

Ray W. Scott is sergeant-at-arms for Tiger Toastmasters in Auburn.

Mrs. Anne Cul-lars Graves is a homemaker in Clanton. She & her husband have three children, Sheree, Melody, and Lisa.

Born: a daughter, Elizabeth Lee, to Mr. and Mrs. Hubert Lee Crow, Jr., in Decatur, Ga., on March 15 . . . A daughter, Toni Mar-rie, to Mr. and Mrs. Gerald Kenneth

Anne Graves

Tyler (Martha A. Mallory) in Port St. Joe, Fla., July 21, 1959 . . . A daughter, Sandra Caroline, to Mr. and Mrs. Bobby Barrett in Auburn May 6 . . . A daughter, Eliza Marteen, to Mr. and Mrs. Ronnie C. Goodwin in Auburn, May 12.

(Continued on page 12)

ALUMNALITIES—Continued

Ensign Hugh T. Williams graduated from the U. S. Naval Academy at Annapolis, Md., this month.

Mrs. Dorothy Waters Wilson MA '59 teaches English at Jones Valley High School in Birmingham. Her husband, Robert, is a student at the University of Alabama Medical College.

Richard Patrick Brasell is a mechanical engineer at Redstone Arsenal in Huntsville.

Frank Akin Tucker is a pharmacist with Alabama Drug Co. in Montgomery.

Dr. Maurice C. McNay is practicing veterinary medicine in Jamestown, Tenn. He and his wife are the parents of three children, Gary, Elizabeth Ann, and Curtis Lee.

Jona Elizabeth Cason is a stewardess with Delta Airlines in Atlanta, Ga.

Married: Paula Sue Smith to Richard Marvin Graves in Phenix City May 6. She is a case worker for the Department of Pensions and Security in Phenix City and he is a senior at Auburn University . . . Julia Claire Smith to James Truett Gullage in Waverly May 29 . . . Roberta Haynes to Lt. Thomas Waymon Paul in Woodland June 12 . . . Marie Kathleen Peinhardt to John Killman Dombhart in Cullman May 15 . . . Alys Elizabeth Caffee to John Robert Thomason in Fairfield June 11.

New Addresses: Delbert D. Horne, Buena Vista, Va.; William A. Caton, Elmore; Ronald B. Smith, West Point, Ga.; George W. Burkart, Jr., Tiffin, Ohio; Mr. and Mrs. William E. Morris (Juliette Aldridge '61), Columbus, Ga.; Lt. Lewis W. Lamar, Camp Lejeune, N. C.; 2/Lt. Charles A. Bush, Camp Lejeune, N. C.; James T. Hill, Huntsville; 2/Lt. Robert E. Hagler, Concord, Mass.; 2/Lt. George B. Lee, Ft. Sill, Okla.; June E. Moore, Montgomery; Mr. and Mrs. C. Ray Wiseman (Ellen Walters '60), Wichita, Kans.; Robert W. Morris, Washington, D. C.; J. Ralph Meadows, Montgomery; Edwin L. Crane, Jr., Montgomery; Dr. Henry P. Brooks, Tampa, Fla.

1960

Samuel Stuart Norton, Jr., is a test engineer for Georgia Power Company in Atlanta. He is married to the former Shirley Hall.

Robert M. Mike'll is a field engineer in Pensacola, Fla., for Southeastern Underwriters Association. On March 26 he was married to Rubye Carolyn Till of Ashville, N. C., an alumna of Huntingdon College in Montgomery.

James T. Stewart received the scholastic attainment award in pharmacy for the past academic year. The gold medal award is made by Lehn & Fink.

Mrs. Margaret Henry Murphy is now an Auburn housewife.

Albert S. Coker, Jr., is a pharmacist with Gammage Brothers Drugs in Greenville.

Thomas S. Sims is a chemical engineer with Dow Chemical Co. in Freeport, Tex. He and his wife, nee Mary Ann Surratt, have a son Stephen S., 3 months.

Robert Edward Leonard is a service forester with the Tennessee Division of Forestry in Oneida, Tenn.

Mrs. Jean Wise Colquett is a housewife in Macon, Ga. She is married to Howard Colquett '59.

Marvin Edmund McCoy is an electronics engineer at Brookley AFB, Mobile.

J. A. Harris

—Mary, 4; Timothy, 3; and Rose Ann, 1. 2/Lt. Carl B. Shelley is on duty at Holloman AFB, N. Mex.

Joseph Albert Harris is with the Birmingham Slag Division of Vulcan Material Corporation in Fairfield.

Samuel Clifton Malone is a resident interior designer with Galloway's Stores, Inc., in Tampa, Fla. He and his wife, Barbara Mae, have three children

William Morgan Adams, Jr., is an electrical engineer with General Electric in Pittsfield, Mass. He and his wife, nee Barbara Sue Simpson, have a son, William M., III, 2.

Robert D. Bentz is an engineer with American Cyanamid Co. in Pace, Fla.

James Alexander Moore, Jr., is with IBM in Birmingham.

Moses Alexander, III, is a mechanical engineer at Brookley AFB in Mobile.

Thomas Hewitt Brakefield is in a special training program with Genesco in Nashville.

Rochelle Jordan Morriss of Birmingham has been teaching in Tallassee High School.

Myrtie Will Fargason is an English teacher at Mellow Valley High in Cragford.

Clyde H. Wood is a junior engineer with Alabama Power Co. in Anniston. He and his wife, the former Carolyn McLaughlin, have two sons—Larry, 3½, and Mark, 2 months.

James Edward Dupree is an assistant in electrical engineering at Auburn University. His wife is Mattie Rea (Patsy) Pitts '59.

Linda Kay Hall is a graduate student in music education at Auburn University.

Mary Ann Boatright teaches physical education at Opelika Junior High School. She is married to Donald D. Boatright '51.

Calvin McLeod Logue is assistant director of Methodist students at Auburn University. His wife is Mary Joe Clearman '59.

James Ellis Reynolds is district manager for Vulcan Life Insurance Co. in Birmingham. He is married to Nancy Reickert, and they have a son, James Walter, 6 months.

Mrs. Mary Elizabeth Schuessler McCrory is an associate engineer with Boeing Airplane Co. in Seattle, Wash. She is married to Henry O. McCrory '59.

Fred Craft is foreman for Guardian Construction Co. in New Orleans, La. He and Mrs. Craft have a son, Richard, 3.

Henry Watson Ivey, II, is assistant superintendent of the Tennessee Valley Substation at Belle Mina.

Lt. Lee Mason MacMurdo, Jr., is with the Georgia Air Guard at Dobbins AFB, Marietta, Ga.

Donald Bennett Hoover is an industrial engineer with Peerless Woolen Mills in Rossville, Ga.

Virginia Bullock Hardenbergh is assistant home demonstration agent of Washington County. She lives at Chatom.

Emmette Phillip Waite, Jr., is a resident engineer in Gainesville, Fla. He is married to Janet R. Smith '59.

Lynne MacConville is a production artist in the advertising department of Davison's in Atlanta.

Jo Ann Vaught will teach in the city school system of Scottsboro beginning in the fall.

Mary Camille Land will begin her internship at Emory University Hospital in laboratory technology in July.

James Borden Coupland is serving in the U. S. Army at Fort Jackson, S. C.

Rex Frederick is an agent for Vulcan Life Insurance Co. in Auburn.

William Richard Falls is an estimator for Renfro Construction Co. in Fayette.

John Clarence Murdock, Jr., is a job engineer for Shell Chemical Co. in Norco, Louisiana.

Wallace Samuel Ledbetter is a dairy farm owner and operator on Route 12, Birmingham. He and his wife have a son, Steven Austin.

Ann Gilbert Cromwell will teach in the Fort Benning Children's School beginning in August.

Joseph Franklin Allums is a supervisory trainee with J. P. Stevens and Co. in Dublin, Ga. He and his wife are the parents of a son, Victor Anthony.

V. Hardenbergh

A SURVEY OF EUROPEAN CIVILIZATION—

Few would choose a precarious perch below Chewacla Falls as a place for getting the proper perspective of European civilization; but whatever one thinks of Pat Russo's method of study, he'll have to admit that she does it beautifully.

Janette Yates teaches home economics at Baldwin County High School in Bay Minette.

Wheeler Compton Wright, Jr., is a graduate student in mechanical engineering at Auburn University.

William Howard Boyd is a forester for Georgia Kraft Co. in Macon, Ga.

Wayne Johnson Crews is associated with J. P. Stevens and Co. in Milledgeville, Ga.

Earl Edwin Clark is a sales engineer with Johnson Service Co. in Birmingham. He and Mrs. Clark have two sons, Earl, III, 4, and Steve, 3.

Marlene Hunt is an artist for The Window, publication of the Woman's Missionary Union, Auxiliary to Southern Baptist Convention, in Birmingham.

Genta Josephine Sharp is assistant home demonstration agent of Etowah County with office and residence in Gadsden.

Ann Culpepper plans to begin teaching in Fairfield this fall. At present she is living in Birmingham.

Harrell Walton Little, Jr., is an architectural designer in Albany, Ga.

Mrs. June Pitts Wood is living in Auburn while her husband, Donald Ray Wood '59, is pursuing graduate studies at Auburn University.

Billy La Rue Rumbley is a production engineer for Florence Packing Co. in Florence.

Ensign Fred Bateman Hover is stationed at Pensacola, Fla.

Phoebe Love Williamson plans to begin teaching in the fall. At present she is living in Gurley.

Don Lee Watson is a supervisory trainee with Johnston Mill in Johnston, S. C.

S. W. Buchanan

A. Pinckney Straughn is an accountant for Arthur Andersen and Co. in Atlanta, Ga.

John Webster Woodham is a draftsman for Tom Kirkland, AIA, in Montgomery.

Joe Frank Sharp is an engineer with the Radio Corporation of America in Camden, N. J.

Sherman Walter Duck is recording supervisor with Educational Television at Auburn University. He and Mrs. Duck are the parents of two sons, Mike, 8, and Teddy, 6.

Tommie Amos Gibbs is a public health engineer with the Jefferson County Health Department in Birmingham.

Carl Mack Jeffcoat is an engineer with American Tel and Tel in Cincinnati, Ohio.

James Douglas Wood is a chemist with E. I. duPont at Watson.

Robert Theodore McClendon is a pharmacist at Dillehay's Drug Store in Decatur.

Wallis Perry Schuessler is hatchery supervisor for Dorn and Mitchell Drug Co. in Opelika. He and his wife are the parents of a seven-week-old daughter, Mary Letrice.

Mrs. Patricia Nussbaum Michel will teach at the Noble Street School in Anniston beginning in the fall. She is married to Albert B. Michel '59.

Married: Carol Seaver to Gary Ervin Reid in Warrior June 10 . . . Betty Ann Taylor to Lewis Yarbrough Ward in Grand Bay June 11 . . . Mary Frances Oswald to Warren Eugene Norris in Montgomery June 10 . . . Patricia Gayle Lovvorn '61 to Thomas David Bivin, Jr. in Sylacauga June 5 . . . Jo Ann Beason to Don Watson Powell in Birmingham June 4. He is a freshman at the Medical College of Alabama.

New Addresses: Thomas D. Floyd, Almonesson, N. J.; Mr. and Mrs. Ronald H. Sullivan (Patricia Grimes), Milledgeville, Ga.; Robert E. York, Jr., East Gadsden; Joseph L. Hutchinson, Gainesville, Ga.; Lt. Carl B. Shelley, Holloman AFB, N. M.; Johnny G. Pitts, Jr., Waco, Tex.

1962

Married: Shirley Jean Richardson to Jerry James Stiff in Wetumpka June 18 . . . Martha Aline Williams to Joe Nunnery in Avondale Estates, Ga., June 4.

New Address: Barney A. Beach, Tampa, Fla.
